## Product Description

### Product Description:

The 15-inch Android POS terminal is designed to provide a seamless checkout process, making it perfect for busy retail stores. The POS terminal is equipped with Wi-Fi, Bluetooth, and 4G connectivity, allowing you to accept payments from various sources. The Android 13 POS terminal is also equipped with NFC, which enables contactless payments, making it easier for customers to pay for their purchases. The Android POS terminal is suitable for a wide range of businesses, including restaurants, apparel stores, and jewelry shops. The terminal comes with a cloud management platform that allows you to manage your devices remotely, giving you more control over your business operations. The cloud management platform also allows you to access real-time sales data, enabling you to make informed decisions about your business.

The Android POS terminal is designed to be user-friendly, making it easy for your staff to operate. The flat capacitive touch screen ensures that your staff can easily navigate through the menu, making the checkout process faster and more efficient. The second screen, which measures 10 inches, allows your customers to see their purchases as they are being rung up, improving the customer experience. The Android POS terminal is equipped with Android 13 Sunmi OS, providing you with a stable and secure operating system. The OS is designed to be user-friendly, making it easy for you to customize the terminal to suit your business needs. The Android POS terminal is also equipped with a powerful processor, ensuring that it can handle even the most demanding applications.

In conclusion, the flat capacitive touch screen Android POS terminal with a second screen that measures 10 inches is the perfect solution for businesses that want to streamline their operations and improve customer experience. The 15-inch Android POS terminal is equipped with Wi-Fi, Bluetooth, and 4G connectivity, making it easy for you to accept payments from various sources. The Android 13 POS terminal is also equipped with NFC, enabling contactless payments, making it easier for customers to pay for their purchases. The Android POS terminal is suitable for a wide range of businesses, including restaurants, apparel stores, and jewelry shops. The terminal comes with a cloud management platform that allows you to manage your devices remotely, giving you more control over your business operations.

### Applications:

The Sunmi D3pro is a 15 inch Android POS terminal that is perfect for a wide range of applications. Its large, high-resolution touch screen makes it easy to navigate and use, and its dual-screen capabilities allow for even greater flexibility and functionality. The Sunmi D3pro also comes equipped with a powerful processor, ample memory, and support for multiple languages, making it a versatile and reliable choice for businesses of all sizes.

One of the key features of the Sunmi D3pro is its support for external memory, with 1 MicroSD (TF Card) slot that can support up to 1TB

of storage. This makes it easy to store and access important data, such as sales records, inventory information, and customer data. Additionally, the Sunmi D3pro comes with a range of connectivity options, including Wi-Fi, Bluetooth, and USB, making it easy to connect to other devices and peripherals.

The Sunmi D3pro is also designed with security in mind, with a power button that can lock the screen and optional fingerprint recognition for added protection. And with its certification for CE, FCC, and RoHS, you can be sure that the Sunmi D3pro meets all the necessary safety and environmental standards.

Whether you are a software provider, POS hardware wholesaler, or end-user, the Sunmi D3pro is an excellent choice for your business. With a minimum order quantity of just 1 and a negotiated price point, the Sunmi D3pro is a cost-effective and reliable solution that can help you improve efficiency, increase sales, and provide better service to your customers. So why wait? Order your Sunmi D3pro today and start reaping the benefits of this powerful and versatile Android POS terminal.
