Product Description

Product Description:

One of the standout features of the Smart Desktop Terminal is its TMS or Terminal Management System. This allows businesses to manage their devices with ease, ensuring that they are always up-to-date and working at peak performance. With the TMS, businesses can easily install updates, monitor performance, and troubleshoot issues as they arise.

The Smart Desktop Terminal is also equipped with a Cloud Management Platform, which allows businesses to manage their devices from anywhere in the world. With the Cloud Management Platform, businesses can access real-time data, monitor performance, and make changes to their systems as needed. This feature is especially useful for businesses with multiple locations or those that need to manage their devices remotely.

The Smart Desktop Terminal is powered by 4GB RAM + 64GB ROM, providing businesses with the speed and storage they need to run their operations smoothly. This terminal Android POS is also equipped with a dual-screen display, which allows businesses to streamline their operations and improve their customer service. With the dual-screen display, businesses can easily manage orders, process payments, and display product information to customers.

Whether you run a restaurant, apparel store, or jewelry shop, the Smart Desktop Terminal is the perfect solution for all your point-of-sale needs. With its advanced features and reliable performance, this Android 13 POS terminal is sure to take your business to the next level.

Remote assistance

Applications:

The Sunmi D3pro is a flat capacitive touch screen android pos terminal that provides a seamless and hassle-free user experience. Its Qualcomm Hexa-core processor is capable of up to 2.4GHz, ensuring fast and smooth operations. It also comes with an option for NFC Tap on Glass to support transactions, making it even more convenient for both the business and the customers. Restaurants can benefit from the Sunmi D3pro's cloud management platform, which allows for easy device management and monitoring. It can also support multiple payment methods, including cash, credit/debit cards, and mobile payments. Apparel stores and jewelry shops can also take advantage of the Sunmi D3pro's external memory, with 1*MicroSD (TF Card) up to 1TB supported. This allows for easy storage and retrieval of product information, making transactions faster and more efficient. The Sunmi D3pro is also certified with CE, FCC, and RoHS, ensuring its quality and reliability. It has a minimum order quantity of 1, with price to be negotiated. Each piece comes in one carton, with delivery time for samples at 3-7 working days and bulk orders to be discussed. Payment terms include T/T and L/C, with a supply ability of 20,000 pcs/month. Overall, the Sunmi D3pro is a highly recommended android pos terminal for any business establishment that requires a fast, reliable, and efficient payment processing system.
