Product Description

Product Description:

The 15.6-inch flat capacitive touch screen display is perfect for customer interaction and provides a clear visual for all transactions. The dual-screen POS terminal Android setup makes it easy to see the transaction details and the customer's total at the same time. Our Android POS Terminal comes with a Terminal Management System (TMS) to ensure that all devices are up to date and secure. This feature allows you to remotely update software and manage devices, making it a convenient and efficient way to manage your POS system.

We also offer an NFC option with NFC Tap on Glass to support contactless payments. This feature is perfect for those who prefer a quick and easy payment method without having to handle cash or cards.

Applications:

Catering: Sunmi D3pro is an ideal product for the catering industry. It can be used in restaurants, cafes, bars, and other catering establishments. Its 15-inch Android POS terminal screen allows for easy order management, payment processing, and menu customization. The dual-screen feature enables the customer to see the order and the total amount to be paid, making the ordering process easy and transparent.

Retail Store: Sunmi D3pro Android POS systems terminal machine is perfect for retail stores. It provides an efficient and easy way to

manage inventory, process payments, and handle customer transactions. The 15-inch Android POS terminal screen makes it easy for the cashier to see the products and prices, while the customer-facing screen displays the total amount to be paid.

Transportation: Sunmi D3pro is a reliable product for transportation companies. It can be used to track and manage transportation orders, process payments, and handle customer transactions. Its dual-screen feature enables the driver to see the order details, while the customer-facing screen displays the total amount to be paid.

Lottery: Sunmi D3pro is an ideal product for lottery operations. It can be used to process lottery tickets, manage orders, and handle customer transactions. Its 15-inch Android POS terminal screen provides a clear view of the lottery tickets, while the customer-facing screen displays the total amount to be paid.

TMS: Sunmi D3pro comes with TMS (terminal management system) that enables remote management of the product. This feature allows for easy software updates, real-time monitoring, and system diagnosis. It ensures that the product is always up-to-date and working efficiently.

Multiple Languages: Sunmi D3pro supports multiple languages, making it easy for customers from different countries to use the product. This feature enables the cashier to switch between languages, making it easy for customers to understand the transaction process.

External Memory: Sunmi D3pro comes with 1*MicroSD (TF Card) up to 1TB supported, which provides ample storage space for data and other applications.

Certification: Sunmi D3pro is CE, FCC, and RoHS certified, ensuring that it meets the necessary regulatory standards.

Supply Ability: Sunmi D3pro has a supply ability of 20,000 pcs/month, making it readily available for bulk orders.

Payment Terms: Sunmi D3pro supports T/T and L/C payment terms, making it easy for customers to choose the payment method that suits them.

Delivery Time: Sunmi D3pro has a delivery time of 3-7 working days for samples and bulk orders to be discussed.

Packaging Details: Sunmi D3pro is packaged in one carton, with one piece in each carton.

Price: The price for Sunmi D3pro is negotiable and may vary depending on the order quantity and other factors.
