Product Description

Product Description:

The Android terminal POS machine is equipped with a flat capacitive touch screen, providing a seamless and intuitive experience for both employees and customers. The touch screen technology allows for quick and easy navigation, making transactions more efficient and reducing wait times for customers.

With various apps available in the app store, clients can choose the ones that best fit their needs. This level of customization ensures that businesses are able to tailor their POS system to their specific requirements. Additionally, the Android POS product comes with a terminal management system (TMS), allowing for remote management of the system, reducing downtime and increasing productivity.

The Android POS product also offers a free SDK for software integration. This allows businesses to easily integrate their existing software with the POS system, saving time and reducing the risk of errors. The system is also equipped with Wi-Fi, Bluetooth and 4G connectivity, ensuring that businesses are always connected and able to process transactions regardless of their location.

Overall, the Android POS product is a reliable and efficient solution for businesses looking to streamline their operations and improve customer service. With its flat capacitive touch screen, app store, TMS, SDK, and connectivity options, this product is a must-have for any business in the restaurant, apparel store, or jewelry shop industry.

Corner coffee

Applications:

The D3pro is a state-of-the-art 15 inch Android POS Terminal that offers a wide range of connectivity options, including Wi-Fi, Bluetooth, and 4G. This makes it easy to set up and manage, and ensures that you can stay connected with your customers and employees no matter where you are.

The D3pro Android POS Terminal is designed to be easy to use and manage. It comes with a Cloud Management Platform that allows you to monitor and manage all your devices from a single location. This makes it easy to keep track of your inventory, sales, and other important data, and ensures that you can make informed decisions about your business.

In addition to its advanced features, the D3pro Android POS Terminal also comes with a second screen that can be used to display promotions, advertisements, and other important information. This makes it easy to engage with your customers and keep them informed about your products and services.

The D3pro Android POS Terminal is also designed to be highly durable and reliable. It comes with a CE, FCC, and RoHS certification, which ensures that it meets the highest standards of quality and safety. It also has a minimum order quantity of 1, which makes it easy to purchase and use for businesses of all sizes.

Overall, the D3pro Android 13 POS Terminal is an excellent choice for businesses that want a versatile and efficient solution for their point-of-sale needs. With its advanced features, easy-to-use interface, and durable design, it is sure to meet all your needs and exceed your expectations.

Contact us today to learn more about the D3pro Android 13 POS Terminal, and to discuss pricing, packaging, and delivery options. We look forward to hearing from you!
