Product Description

Product Description:

Designed with flexibility in mind, the Smart Desktop Terminal supports a wide range of payment options, including credit and debit cards, mobile payments, and even NFC tap on glass for added convenience. Whether you're running a busy restaurant, retail store, or any other business that requires quick and secure payments, this desktop Android POS terminal has you covered.

But that's not all. The Smart Desktop Terminal also comes with a free SDK, which means you can easily integrate it with your existing software and customize it to meet your specific needs. Whether you need to track customer data, manage inventory, or analyze sales data, this desktop Android POS terminal gives you the tools you need to stay ahead of the curve.

So why choose the Smart Desktop Terminal over other desktop Android POS terminals? For starters, its large 15.6-inch display ensures that your staff can easily manage transactions and keep track of orders, even in busy and fast-paced environments. And with an optional second screen, you can display dynamic promotions and advertisements to keep your customers engaged and informed.

But perhaps the most impressive feature of the Smart Desktop Terminal is its NFC tap on glass support. This feature allows your customers to make payments simply by tapping their mobile devices on the terminal's glass surface, making the payment process faster and more convenient for everyone involved.

So if you're looking for a reliable, versatile, and easy-to-use desktop Android POS terminal, look no further than the Smart Desktop Terminal. With its powerful features and intuitive design, this sunmi d3 pro android pos systems terminal machine is the perfect choice for any business looking to streamline its operations and improve its customer experience.
