## Applications:

---

The handheld POS touch screen makes it easy for customers to input their payment details, while the device's EMV certification ensures secure transactions.

The V2S V3 mix is suitable for businesses that require fast and efficient payment processing. The device's GPS and AGPS capabilities make it an excellent choice for businesses that require location tracking for deliveries or fieldwork.

The device's 7.2V/2600mAh battery ensures that it can last for extended periods, making it ideal for businesses that operate in areas with limited power sources.

The Sunmi V2S V3 mix supports various languages, including English, Spanish, French, and Chinese, making it a versatile device that can cater to businesses worldwide.

The device's 10.1-inch IPS 1280\*800 display screen provides a clear and vibrant display, making it easy to read and navigate.

The Sunmi V2S V3 mix comes with certifications such as CE, FCC, RoHS, MSDS, and BIS, ensuring that the device meets international standards and regulations.

The device's packaging details include one piece per box and five pieces per carton, making it easy to transport and store. The delivery time for the device is four to seven working days, and the payment terms are T/T.

The Sunmi V2S V3 mix has a minimum order quantity of one, and the price is negotiable. The device's supply ability is 15,000 pieces per month, making it readily available for businesses that require multiple devices.

In summary, the Sunmi V2S V3 mix handheld POS terminal EMV is ideal for businesses that require mobility, security, and efficiency in their payment processing.

## Customization:
