Applications:

One of the key features of the Sunmi P2 is its 4 inch HD touch screen, which makes it easy for users to navigate and use the device. This touch screen is also highly responsive, ensuring that users can quickly and easily complete transactions and other tasks. In addition, the Sunmi P2 supports a range of payment options, including mobile wallet, NFC, bank card, and credit card, making it an incredibly versatile and convenient option for users.

The Sunmi P2 is also highly versatile in terms of its supported languages, with support for English, Chinese, Spanish, French, German, and many other languages. This makes it a great choice for businesses that serve customers from diverse backgrounds and cultures.
Some of the key application occasions and scenarios for the Sunmi P2 smartpad include:

Retail stores: The Sunmi P2 is an excellent choice for retail stores of all kinds, from small boutiques to large department stores. Its powerful processor and advanced features make it easy to manage inventory, process transactions, and provide customers with a high-quality shopping experience.

Restaurants: For restaurants, the Sunmi P2 is an ideal choice for managing orders, processing payments, and providing customers with a seamless dining experience. Its advanced features, such as its built-in imprimante smart POS, make it easy to manage orders and streamline operations.

Hotels: The Sunmi P2 is also a great choice for hotels, where it can be used to manage reservations, process payments, and provide guests with a range of services and amenities. Its advanced capabilities and high level of security make it an excellent choice for this application scenario.

Other businesses: The Sunmi P2 is a versatile and powerful smart POS machine that can be used in a wide range of other businesses and industries, from healthcare to transportation. Its advanced features and capabilities make it easy to manage operations and provide customers with a high-quality experience.

With its powerful Cortex-A53 quad-core processor, advanced features, and certifications such as CE, FCC, RoHs, and MSDS, the Sunmi P2 is a reliable and high-quality option for businesses of all kinds. Its minimum order quantity of 10, flexible pricing, and fast delivery time of 4-7 working days make it easy to get started with this powerful smart POS machine. So whether you're looking for a reliable and efficient POS solution for your retail store, restaurant, hotel, or other business, the Sunmi P2 is an excellent choice.

Customization:

Our Smart POS product, the Sunmi P2 smartpad, offers a range of customization services to meet your specific needs.

The P2 smartpad is a reliable and efficient smart cashier machine POS that is designed to enhance your business operations. It features a Cortex-A53, quad-core processor and runs on the Android 9 Sunmi OS operating system. It comes equipped with a 4 inch HD touch screen that is perfect for bank and retail shop applications.

The P2 SMARTPAD is IP53 rated, meaning it can sustain liquid spilling or splashing. It also comes with a hand strap for ease of use.

Our product is certified by CE, FCC, RoHs, and MSDS and has a minimum order quantity of 10 units. We offer flexible pricing, packaging details, delivery time, and payment terms that can be negotiated to fit your specific needs.

Our supply ability is 15000 pieces per month, making us a reliable partner for your business. Contact us today to learn more about our smart mini plus POS product and how we can help you customize it to meet your unique requirements.

Support and Services:

The Smart POS product technical support and services include:

24/7 online support for software and hardware issues

Remote troubleshooting and diagnosis

On-site technical support and repair

Software updates and maintenance

Training and education for end-users and IT staff

Our team of experienced technicians and support staff are dedicated to ensuring the smooth operation and maintenance of your Smart POS system. We are committed to providing timely and effective solutions to any technical issues that may arise.

Packing and Shipping:

Product Packaging:
The Smart POS product will be packaged in a sturdy cardboard box with the company logo and product name on the outside. Inside, the product will be securely wrapped in bubble wrap and placed in a custom foam insert to prevent any damage during shipping. The package will also include a user manual and power adapter.

Shipping:
The Smart POS product will be shipped via standard ground shipping within the United States. Shipping times may vary depending on the destination, but customers will receive a tracking number to monitor their package's progress. For international orders, additional shipping charges may apply and shipping times may be longer due to customs clearance processes.
