Product Description

Product Description:

One of the key features of this online POS system is its large 15.6-inch screen that provides a clear and crisp display of transaction details, making it easy for cashiers to process payments quickly and accurately. The screen is also highly responsive, ensuring that transactions can be completed without delay.

In addition to its impressive screen, the Android POS system is also GMS certified, ensuring that it meets Google's high standards for performance, security, and reliability. This makes it a trusted and dependable POS system that businesses can count on to deliver consistent results.

Another standout feature of this Android POS system is its ability to support thermal paper rolls with a maximum diameter of 80mm. This means that businesses can use a wide range of paper roll sizes, giving them more flexibility and making it easier to manage their inventory.

Whether you're running a small retail shop or a large restaurant, the Android POS system is an ideal choice for businesses looking to streamline their operations and improve their customer service. With its powerful features and reliable performance, it offers a comprehensive solution for all your point-of-sale needs.

Applications:

The Sunmi T3 Pro is an Android Pos System that provides a variety of solutions for retail and hospitality businesses. With its CE, FCC, and RoHs certifications, this product guarantees quality and safety. It has a minimum order quantity of 1 and a supply ability of 15000 pieces per month. The price is negotiable and it comes in a packaging detail of 1pc/carton, with a delivery time of 5-7 working days after payment. Payment terms include T/T and L/C.

The Sunmi T3 Pro is a great choice for businesses that require a POS system with a printer. Its free SDK offered support makes it easy for businesses to customize the system to fit their specific needs. The 15.6-inch screen size makes it convenient for staff to use and view the system.

For restaurants, the Sunmi T3 Pro can provide an efficient restaurant system pos. It can help manage and track orders, inventory, and sales, making it easier for staff to provide excellent customer service. The system can also generate reports and analytics, giving business owners valuable insights into their operations.

The Sunmi T3 Pro is not limited to restaurants, it can also be used as a retail POS system. It can help manage inventory, sales, and customer data. The system is easy to use and can help businesses provide a seamless checkout experience for their customers.

In conclusion, the Sunmi T3 Pro is a versatile Android Pos System that can provide solutions for a variety of businesses. Its features make it an efficient and reliable option for businesses that require a POS system with a printer. It is a great option for businesses in need of a restaurant system pos or retail POS system.
