Product Description

Product Description:

One of the key features of our POS Terminal is its support for multiple languages, which makes it ideal for businesses that operate in diverse markets and regions. With support for multiple languages, you can ensure that your customers and staff can interact with the terminal in a way that is comfortable and familiar to them.

In addition to supporting multiple languages, our POS Terminal can also be customized to feature your business's logo and color scheme. This means you can create a truly unique and on-brand experience for your customers, helping to build brand recognition and loyalty. Our POS Terminal also features a capacitive five-point touch screen, which makes it easy and intuitive for customers and staff to use. With this touch screen technology, you can speed up transactions and reduce errors, which can help to improve the overall efficiency of your business operations.

Our POS Terminal runs on the Android 13 operating system, which means it offers a powerful and versatile platform for running your business applications. With Android 13, you can take advantage of the latest features and capabilities, including enhanced security, improved performance, and a more intuitive user interface.

Finally, our POS Terminal comes with an offer MDM system, which helps you to manage and secure your devices from a central location. This means you can easily monitor and control your POS Terminal devices, ensuring that they are always up-to-date and secure.

If you're looking for a custom logo terminal or a versatile and reliable POS system for your business, our POS Terminal product is the perfect solution. With its advanced features, intuitive touch screen, and support for multiple languages and customization options, our POS Terminal can help you take your business to the next level of success.

Applications:

The Hanbu HB-P6 is an Android POS that is designed for various payment applications. With its 6-inch screen, it is a handheld POS terminal that is perfect for businesses that need a mobile payment solution. This POS terminal is made in China and has certifications such as CE, MSDS, CCC, and RoHS, ensuring its quality and safety.

With a minimum order quantity of 2 and a negotiable price, the Hanbu HB-P6 is a cost-effective solution that comes in a packaging of 20 pcs per carton. It has a fast delivery time of 2-5 working days and payment terms of T/T and L/C. The supply ability of this product is 20000 pieces per month, making it an ideal option for businesses that need a high volume of POS terminals.

The Hanbu HB-P6 is powered by Android 13 and has 3GB RAM + 16GB ROM or 4GB RAM + 64GB ROM, providing sufficient memory for various payment applications. It also supports NFC, making it easy for customers to make contactless payments. The POS terminal comes with pre-installed Google Play Store, allowing users to download compatible applications for their business needs. It also supports multiple languages, making it user-friendly for customers and employees from different regions.

This Android POS is ideal for various occasions and scenarios, making it a versatile payment solution. It can be used in retail stores, restaurants, cafes, food trucks, and other businesses that require a mobile payment solution. It is also suitable for events, exhibitions, and trade shows where payments need to be made on the spot. Its handheld design makes it easy to carry and use anywhere, providing convenience and flexibility for both businesses and customers.
