Product Description

Product Description:

One of the standout features of this POS Terminal is its powerful battery. With a 3.8V 6400mAh(7.6V 3200mAh) battery, this device can last for hours on a single charge. This makes it perfect for businesses that operate in areas where power outlets may not be readily available.

The CPU of this POS Terminal is an 8-Core * 1.6GHz processor, which makes it incredibly fast and efficient. This means that businesses can quickly process payments and keep their lines moving. With 3GB RAM + 16GB ROM or 4GB RAM + 64GB ROM options, this device is perfect for businesses that need to store a lot of data.

Another great feature of this POS Terminal is that it comes with an MDM system. This means that businesses can easily manage all of their devices from a central location, making it easier to keep track of inventory and sales data.

Finally, this POS Terminal comes with a 5V/2A power adapter, which makes it easy to charge the device when it is running low on battery. With all of these great features, the Handheld POS Machine is the perfect device for any business that wants to streamline their checkout process and provide a professional customer experience.

Features:
