Product Description

Product Description:

One of the standout features of this POS terminal is its power adapter, which provides 5V/2A of charging power. This ensures that your terminal stays powered up and ready to go, even during extended periods of use. Additionally, this terminal comes equipped with a 3.8V 6400mAh battery (7.6V 3200mAh), allowing you to take your business on the go and process transactions wherever you are.

Another key benefit of this terminal is that it offers an MDM system, allowing you to manage your devices and ensure that they are up-to-date and secure. This makes it an ideal solution for businesses of all sizes, from small convenience stores to larger restaurants and parking systems.

One of the most exciting features of this POS terminal is that it can be fully customized with your own logo or branding. This makes it a great choice for businesses looking to create a professional and cohesive image, and helps to reinforce your brand identity with your customers.

This POS terminal is also designed to support multiple languages, making it a great choice for businesses with diverse customer bases or international operations. Whether you're processing prepaid airtime top-ups or conducting transactions in a busy convenience store, this terminal is sure to meet your needs and exceed your expectations.

In summary, our Android Handheld POS Terminal is a versatile and powerful solution for businesses of all sizes. With its customizable logo, multiple language support, and powerful battery and charging capabilities, it's a great choice for any business looking to streamline their operations and improve their bottom line.
