#### Product Description

## Product Description:

One of the standout features of our POS Terminal is that it offers a free SDK for integration. This means that businesses can customize the device to meet their specific needs, whether it be integrating it with their existing systems or developing custom software. Our POS Terminal is compatible with a wide range of software, making it a versatile choice for businesses of all types.

Another key feature of our POS Terminal is its NFC support. This allows businesses to accept contactless payments, which is becoming increasingly popular with consumers. With NFC support, businesses can offer their customers a quick and convenient way to pay, improving the overall customer experience and increasing customer satisfaction.

The POS Terminal runs on the latest Android 13 operating system, providing businesses with a secure and reliable platform for their transactions. The device is equipped with either 3GB RAM + 16GB ROM or 4GB RAM + 64GB ROM, offering businesses the flexibility to choose the device that best suits their needs. This enables businesses to process transactions quickly and efficiently, without any lag or delays.

Our POS Terminal is an all-in-one solution that is designed to meet the needs of modern businesses. It is equipped with all the necessary features, including a thermal printer, barcode scanner, and magnetic stripe reader, making it an ideal choice for businesses of all types. The device is also customizable, with the option to add a custom logo terminal, allowing businesses to brand the device with their own logo.

In summary, our POS Terminal is a versatile and reliable device that is perfect for businesses of all sizes. With its 6-inch screen display, free SDK integration, NFC support, and all-in-one design, it offers businesses the flexibility and convenience they need to process transactions quickly and efficiently. So why wait? Get your hands on our POS Terminal today and take your business to the next level!

### Applications:

The Hanbu HB-P6 POS Terminal is an all-in-one touch POS machine that is designed to offer high-quality performance. This Bluetooth POS machine is made in China and is certified with CE, MSDS, CCC, and RoHS. The minimum order quantity for this product is 2 units and the packaging details include 20 pieces per carton. The delivery time for this product is 2-5 working days and payment terms include T/T and L/C. The supply ability for this product is 20000 pieces per month.

The Hanbu HB-P6 POS Terminal comes with a 58mm printer paper width and a power adapter of 5V/2A. It has two memory options, 3GB RAM + 16GB ROM or 4GB RAM + 64GB ROM. This handheld POS terminal is perfect for use in various scenarios, including restaurants, parking systems, prepaid airtime top-up, and convenience stores.

Restaurants can use the Hanbu HB-P6 POS Terminal to manage orders, payments, and inventory. The handheld design allows servers to take orders and process payments tableside, improving efficiency and customer satisfaction. Additionally, the 58mm printer can be used to print receipts and kitchen orders.

Parking systems can also benefit from the Hanbu HB-P6 POS Terminal. The handheld design allows parking attendants to process payments and issue tickets on the spot. This improves efficiency and reduces traffic congestion. The 58mm printer can be used to print parking tickets or receipts.

Prepaid airtime top-up can be easily managed with the Hanbu HB-P6 POS Terminal. The handheld design allows retailers to sell airtime top-up vouchers on the spot, improving customer convenience. The 58mm printer can be used to print receipts or vouchers.

Convenience stores can also benefit from the Hanbu HB-P6 POS Terminal. The handheld design allows cashiers to process payments and manage inventory on the spot. The 58mm printer can be used to print receipts or labels for products.
