- Processor: Qualcomm Hexa-core, Up To 2.4GHz
- Operating System: Android 13 Sunmi OS
- Highlight: **Sunmi D3 Pro Android POS Systems , Sunmi D3 Pro Android POS**

## Product Description

### Product Description:

The Android POS product is a cutting-edge solution designed for businesses looking for a reliable and efficient point-of-sale system. With its sleek design and advanced features, it is the perfect choice for software providers, POS hardware wholesalers, and end-users in need of a top-notch POS solution.

The Android supermarket POS terminal comes with a large 15.6-inch display, providing users with a clear and vivid interface to easily navigate through transactions and manage sales efficiently. The sizeable screen ensures that all information is displayed prominently, making it ideal for busy retail environments.

Equipped with 4GB of RAM and 64GB of ROM, this Android terminal POS machine offers ample memory to handle multiple tasks simultaneously without any lag or slowdown. Users can store a vast amount of data, including sales records, inventory information, and customer details, ensuring smooth operations and quick access to essential data.

One of the standout features of this Android POS product is the free SDK offered for software integration. This allows software providers to customize the system according to specific business needs, creating a tailored solution that meets unique requirements. The free SDK empowers developers to enhance the functionality of the POS system and integrate additional features seamlessly.

Additionally, the Android POS terminal comes with a Terminal Management System (TMS), enabling users to remotely manage and monitor multiple terminals from a centralized location. The TMS simplifies the process of updating software, configuring settings, and monitoring performance, ensuring all terminals are operating optimally at all times.

Whether you are a software provider looking to offer a comprehensive POS solution to your clients, a POS hardware wholesaler seeking a reliable and feature-rich product, or an end-user in need of a high-performance POS system, the Android POS product is the perfect choice. Its versatility, advanced features, and user-friendly interface make it a valuable asset for businesses of all sizes.

Connect a secondary display  
with a USB cable and offer the  
best interaction experience to  
your customers.

### Applications:

Sunmi D3pro is a cutting-edge dual-screen POS terminal Android device, perfect for a wide range of product application occasions and scenarios. Whether you run a small retail shop, a bustling restaurant, or a busy coffee shop, the Sunmi D3pro is designed to meet your needs with its innovative features and reliable performance.

With its compact design and powerful capabilities, the Sunmi D3pro is ideal for businesses looking to streamline their operations and

enhance customer experiences. The 15.6-inch main screen provides a vibrant display for easy navigation and order processing, while the 10-inch second screen offers additional functionalities such as advertising, promotions, or customer interactions. Thanks to its 4GB RAM and 64GB ROM memory, the Sunmi D3pro can handle multiple tasks simultaneously without compromising speed or efficiency. The device management feature, coupled with the Cloud Management Platform, allows you to monitor and control your POS system remotely, ensuring smooth operations and timely updates. Whether you require a single unit or bulk orders, the Sunmi D3pro offers flexible options with a minimum order quantity of 1 and a negotiable price. The product is certified with CE, FCC, and RoHS, guaranteeing compliance with international standards for quality and safety. For payment terms, T/T and L/C are accepted, and the delivery time for samples is 3-7 working days, with bulk orders to be discussed based on your requirements. With a supply ability of 20000 pcs per month, you can rely on the Sunmi D3pro to meet your demands consistently. In conclusion, the Sunmi D3pro Android POS systems terminal machine is a reliable and versatile solution for businesses seeking a dual-screen POS terminal Android device. With its advanced features, sleek design, and high performance, the Sunmi D3pro is the perfect choice for enhancing efficiency and customer satisfaction in various retail and hospitality environments.
