- Price: to be negotiated
- Packaging Details: 1 pieces in one carton
- Delivery Time: Sample 3-7 working days , bulk order to be discussed
- Payment Terms: T / T , L/C
- Supply Ability: 20000 pcs / month

## Product Specification

- Operating System: Android 13 Sunmi OS
- Memory: 4GB RAM + 64GB ROM
- Button: 1*Power Button (Lock Screen; Fingerprint Recognition Optional)
- Application Industrial: Catering  Retail Store  transportation , Lottery
- Screen Size: 15.6 Inch
- Processor: Qualcomm Hexa-core, Up To 2.4GHz
- Product Name: Smart Desktop Terminal
- Using Scenarios: Restaurant , Apparel Stores , Jewelry Shop
- Highlight: **4GB RAM POS Android Terminal** , **64GB ROM POS Android Terminal** , **1TB External Memory POS Android Terminal**

**Product Description**

## Product Description:

Featuring a sleek design, the Android 13 POS terminal is equipped with a convenient power button that doubles as a screen lock function. Additionally, the optional fingerprint recognition feature enhances security and streamlines the authentication process for both customers and employees. The second screen, with a size of 10 inches, provides added functionality and versatility, allowing for enhanced multitasking capabilities.

Equipped with the latest Android operating system, this POS terminal offers a wide range of customizable features and apps to meet the specific needs of your business. Whether you are a small retail store or a large restaurant chain, the pos android terminal provides a versatile solution for managing transactions, inventory, and customer data.

With its state-of-the-art hardware and intuitive software, the Android 13 POS terminal ensures smooth and efficient operations in any business setting. The responsive capacitive touch screen allows for quick and accurate input, while the high-performance Qualcomm processor ensures rapid processing of transactions and data.

Enhance your business with the Android 13 POS terminal - a reliable and feature-rich solution that combines cutting-edge technology with ease of use. Streamline your operations, improve customer service, and boost productivity with this innovative android pos terminal.

## Applications:

Sunmi D3pro is a versatile and innovative flat capacitive touch screen Android POS terminal that is suitable for a variety of business applications. With its advanced features and reliable performance, this smart desktop terminal is ideal for use in various scenarios.

Product Application Occasions and Scenarios:

- Restaurant: The Sunmi D3pro Android POS terminal is perfect for restaurants of all sizes. Its large 15-inch display and user-friendly interface make it easy to manage orders, process payments, and track inventory. With connectivity options such as Wi-Fi, Bluetooth, and 4G, restaurant staff can efficiently take orders and provide excellent customer service.

- Apparel Stores: The Sunmi D3pro Android POS terminal is also well-suited for apparel stores. The second screen feature allows customers to view product information and promotions, enhancing their shopping experience. The terminal Management System (TMS) enables store owners to monitor sales data, manage inventory, and generate reports easily.

- Jewelry Shop: Jewelry shops can benefit from the Sunmi D3pro Android POS terminal's sleek design and high-performance capabilities. With its fast processing speed and secure payment options (T/T, L/C), jewelry retailers can streamline transactions and improve customer service. The terminal's supply ability of 20000 pcs/month ensures that shops can easily scale their operations.
