Applications:

Sunmi's V3 Mix mobile POS device is a versatile and efficient solution for various product application occasions and scenarios. This handheld POS, with its advanced features and capabilities, is ideal for businesses looking to streamline their operations and enhance customer service.

One of the key application scenarios for the Sunmi V3 Mix is in retail environments. Its compact size and portability make it perfect for use on the shop floor, allowing staff to complete transactions quickly and efficiently. With support for multiple languages including English, Spanish, French, and Chinese, the V3 Mix can cater to diverse customer needs.

Another important application occasion for the Sunmi V3 Mix is in the hospitality industry. Its fast print speed of up to 70mm/s ensures that orders can be processed promptly, improving overall service quality. The device's dual Nano SIM card slot and support for 1.8V/3.0V MicroSD cards make it easy to stay connected and store important data.

Thanks to its Qualcomm Hexa-core CPU and SUNMI OS based on Android 13, the V3 Mix offers reliable performance and seamless operation. The device is CE, FCC, RoHs, MSDS, and BIS certified, ensuring compliance with industry standards and regulations.

Businesses can benefit from the flexibility and convenience of the Sunmi V3 Mix for various applications, whether it's for mobile sales, inventory management, or customer service. With a minimum order quantity of 1 and a supply ability of 15000 pieces per month, businesses can easily scale their operations as needed.

In terms of logistics, the V3 Mix comes with packaging details of 1pc/box or 5pcs/carton, making it easy to transport and store. With a delivery time of 4-7 working days and payment terms of T/T, businesses can quickly integrate the device into their operations.
