Product Description

Product Description:

The Mobile POS is a cutting-edge handheld POS system powered by Android 4G technology, designed to revolutionize your retail business operations. With its compact design and powerful features, this mobile POS offers seamless transactions and enhanced customer service, making it an essential tool for various businesses such as coffee shops, convenience stores, warehouses, and bakery shops.

Equipped with a state-of-the-art 2D Professional Scanner, the Mobile POS ensures quick and accurate scanning of barcodes, enhancing efficiency and reducing errors in inventory management and sales processes. The fast print speed of up to 70mm/s further streamlines operations, allowing for swift printing of receipts and order tickets.

With a robust 4GB RAM and 32GB ROM, the Mobile POS provides ample memory to support multiple applications and store large amounts of data, ensuring smooth performance even during peak hours of operation. Whether you are managing inventory, processing transactions, or generating reports, this handheld POS system delivers reliable performance and responsiveness.

Designed for versatility, the Mobile POS is ideal for a variety of business scenarios, including coffee shops where quick and efficient order processing is essential, convenience stores where inventory management and sales tracking are crucial, warehouses where real-time data access is vital for logistics operations, and bakery shops where accurate labeling and pricing of products are necessary.

Moreover, the inclusion of GPS and AGPS technology in the Mobile POS enables businesses to track the device's location in real-time, ensuring secure transactions and enhanced security measures. Whether you are on the go or stationed at a fixed location, the GPS feature provides added peace of mind and control over your POS system.

In conclusion, the Mobile POS is a game-changer in the realm of handheld POS systems, offering unparalleled convenience, speed, and reliability for businesses of all sizes. With its advanced features, including a 2D Professional Scanner, fast print speed, ample memory, and GPS capabilities, this Android-powered handheld POS system is the perfect solution for businesses seeking to streamline their operations and enhance customer service.

Applications:

Sunmi's V3 mix mobile POS device is a versatile tool that caters to various product application occasions and scenarios, making it an essential asset for businesses in need of a reliable handheld POS solution.

With its compact design and advanced features, the Sunmi V3 mix is ideal for businesses looking to handle POS transactions efficiently. Whether it's in a retail setting, a restaurant, or a pop-up shop, this handheld POS billing printer can streamline the checkout process and enhance customer service.

Thanks to its dual Nano SIM card slot and support for 1.8V/3.0V, the Sunmi V3 mix ensures seamless connectivity, allowing businesses to accept payments on the go. The 2D professional scanner enables quick and accurate scanning of barcodes and QR codes, further enhancing the efficiency of the POS system.

Businesses in need of a hand-held POS device that offers fast print speeds will appreciate the Sunmi V3 mix's ability to reach 70mm/s,

ensuring that receipts are generated swiftly to keep transactions moving smoothly. Additionally, the front 2MP FF QR payment camera and 0.3MP FF camera provide added functionality for capturing images and processing transactions.

Moreover, the GPS and AGPS capabilities of the Sunmi V3 mix make it a reliable tool for businesses operating in various locations, ensuring accurate location tracking and navigation.

Whether it's for retail, hospitality, or service industries, the Sunmi V3 mix is a versatile mobile POS solution that meets the needs of businesses of all sizes. With certifications such as CE, FCC, RoHs, MSDS, and BIS, businesses can trust in the quality and reliability of this device.

Businesses can benefit from the Sunmi V3 mix's flexible payment terms, T/T, and a minimum order quantity of just 1 unit, making it accessible to businesses of all scales. With a supply ability of 15000 pieces per month and a delivery time of 4-7 working days, businesses can rely on the Sunmi V3 mix to meet their POS needs promptly.

Packaged conveniently with 1 piece per box and 5 pieces per carton, the Sunmi V3 mix is a convenient and practical solution for businesses looking to enhance their POS capabilities. The pricing is negotiable, allowing businesses to tailor their investment according to their specific requirements.
