## Product Description

### Product Description:

A handheld smart POS system is an essential tool for businesses looking to streamline their operations and provide a seamless payment experience for their customers. The Mobile POS product offers a powerful Qualcomm Hexa-core CPU, ensuring fast and efficient performance for processing transactions and running various applications.

With 4GB of RAM and 32GB of ROM, this handheld POS system provides ample storage space for storing transaction data, customer information, and other essential business data. The generous memory capacity allows for smooth multitasking and quick access to information, enhancing productivity and efficiency.

Equipped with a 2D professional scanner, this handheld payment POS device enables businesses to quickly and accurately scan barcodes, QR codes, and other types of codes for inventory management, pricing verification, and more. The high-quality scanner ensures reliable performance, reducing errors and improving overall operational efficiency.

For added peace of mind, the Mobile POS product comes with a 1-year warranty, providing protection against any potential hardware issues or defects. This warranty period allows businesses to confidently use the handheld POS system without worrying about additional costs for repairs or replacements.

One of the key features of this handheld smart POS system is its support for multiple languages, including English, Spanish, French, Chinese, and more. This diverse language support makes the POS system accessible to a wider range of customers and employees, facilitating smooth communication and interaction in a multilingual environment.

In summary, the Mobile POS product is a versatile and reliable handheld POS system that offers powerful performance, ample memory capacity, advanced scanning capabilities, warranty protection, and support for multiple languages. Whether you're looking to upgrade your existing POS system or implement a new solution for your business, this handheld payment POS device is designed to meet your needs and enhance your operations.

Battery	7.2V/2600mAh
CPU	Qualcomm Hexa-core

## Applications:

---

Sunmi's V3 mix mobile POS system handheld, model number V3 mix, is a versatile and reliable device designed for various product application occasions and scenarios. This handheld POS device is ideal for businesses looking to streamline their operations and enhance customer service. With its compact design and powerful features, the Sunmi V3 mix is perfect for a wide range of industries and businesses.

One of the key features of the Sunmi V3 mix is its dual Nano SIM card slot, which supports 1.8V/3.0V. This allows users to stay connected on the go, making it ideal for businesses that require mobile POS solutions. The device also comes with a 58mm thermal printer or 80mm thermal printer, providing businesses with flexible printing options.

Whether you are running a retail store, restaurant, or any other business that requires point-of-sale transactions, the Sunmi V3 mix handheld POS device is a perfect choice. Its Qualcomm Hexa-core CPU ensures smooth and efficient performance, while the front 2MP FF camera and 0.3MP FF QR payment camera enable quick and secure transactions.

Businesses can rest assured of the Sunmi V3 mix's quality and reliability, as it comes with various certifications including CE, FCC, RoHs, MSDS, and BIS. The device has a minimum order quantity of 1 and offers flexible pricing options to suit different business needs. With a supply ability of 15000 pieces per month, businesses can easily scale up their operations with the Sunmi V3 mix.

Furthermore, the Sunmi V3 mix handheld POS device has a GPS and AGPS feature, making it suitable for businesses that require location tracking or navigation capabilities. The device's compact design and easy-to-use interface make it a popular choice among businesses looking for hand held POS solutions.

Businesses can enjoy fast delivery times of 4 - 7 working days, along with convenient payment terms of T/T. The Sunmi V3 mix comes packaged securely with 1pc/box, 5pcs/carton, ensuring that businesses receive their devices in perfect condition.
