- Certification: CE , FCC , RoHs , MSDS , BIS
- Model Number: V3 mix
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: 1pc/box,5pcs /carton
- Delivery Time: 4 - 7 working days
- Payment Terms: T/T
- Supply Ability: 15000 pieces per month

#### Product Specification

- Using Scenarios: Coffee Shop , Convenient Store , Warehouse , Bakery Shop
- Print Speed: Fast Print Speed Reach 70mm/s
- Printer: 58mm Thermal Printer ,80mm Thermal Printer
- Supported Languages: English, Spanish, French, Chinese Ect.
- Cpu: Qualcomm Hexa-core
- Memory: 4GB RAM+32GB ROM
- SIM & MicroSD Slot: Dual Nano SIM Card Slot, Support 1.8V/3.0V
- Warranty: 1 Year
- Highlight: **7.2V Handheld POS System ,  
2600mAh Battery Handheld POS System**

## Product Description

### Product Description:

The Mobile POS product is a cutting-edge handheld terminal designed to meet the demands of modern businesses. With a powerful configuration of 4GB RAM and 32GB ROM, this device ensures smooth performance and efficient multitasking capabilities, making it ideal for various retail and service industries.

Equipped with Dual Nano SIM Card Slot and support for 1.8V/3.0V MicroSD cards, the Mobile POS offers versatile connectivity options, allowing for seamless communication and data storage. This feature makes it a versatile solution for businesses that require flexibility and adaptability in their point-of-sale operations.

Running on the SUNMI OS, which is based on Android 13, the Mobile POS provides a familiar and user-friendly operating system that is optimized for POS applications. This ensures compatibility with a wide range of software and tools, making it easy for businesses to integrate the device into their existing systems.

One of the standout features of the Mobile POS is its fast print speed, reaching up to 70mm/s. This high-speed printing capability is essential for businesses that require quick and efficient receipt printing, helping to streamline operations and enhance customer service. Additionally, the Mobile POS comes equipped with GPS and AGPS functionality, providing accurate location tracking and navigation capabilities. This feature is particularly useful for businesses that require real-time location data for delivery services or field operations, enhancing efficiency and productivity.

In summary, the Mobile POS is a versatile and powerful handheld device that is well-suited for a wide range of businesses, from retail stores to restaurants and beyond. With its robust memory, flexible connectivity options, intuitive operating system, fast print speed, and advanced GPS capabilities, the Mobile POS is a comprehensive solution for businesses looking to streamline their POS operations and enhance customer service.
