Product Description

Product Description:

The Android POS Terminal is a versatile retail POS system that is equipped with advanced features to streamline your business operations. With a printer paper width of 58mm, this POS terminal allows you to easily print receipts and invoices for your customers. Powered by a high-performance 8-Core CPU running at 2.0GHz, paired with 3GB of RAM and 32GB of ROM, this POS terminal offers fast and efficient processing power to handle your transactions with ease. Whether you are managing a small boutique or a large retail store, this POS terminal is designed to meet your business needs.

One of the standout features of this POS terminal is its support for multiple languages, making it ideal for businesses operating in diverse regions or serving international customers. The ability to switch between languages seamlessly ensures smooth communication and enhances customer service.

In addition, the POS terminal comes with NFC support, allowing for contactless payments and enabling your customers to make transactions quickly and securely. With the growing popularity of NFC technology, this feature ensures that your business stays up-to-date with the latest payment trends.

Whether you are looking to replace your traditional cash register with a modern POS solution or upgrade your existing POS system, the Android POS Terminal is the perfect choice. Its combination of powerful hardware, versatile features, and user-friendly interface makes it a valuable asset for any business looking to enhance its operations.

Applications:

Perfect for restaurants, parking systems, prepaid airtime top-up, and convenience stores, the HB-P6 PRO offers a range of features including support for NFC, TYPE C charging, and customization options in orange color or other customized designs. Whether you are managing orders in a bustling restaurant, processing payments in a parking system, topping up airtime for customers, or handling transactions in convenience stores, the Hanbu POS terminal is designed to streamline operations and enhance customer service.

With a minimum order quantity of 2 units and pricing to be negotiated, the HB-P6 PRO comes in packaging details of 20 pieces per carton, with a delivery time of 2-5 working days, and payment terms of T/T or L/C.

Additionally, the supply ability of 20000 pieces per month ensures that businesses can easily scale their POS systems according to their needs. The MDM system offered with the POS terminal allows for efficient management of multiple devices, further enhancing the user experience.

Overall, the Hanbu HB-P6 PRO is a reliable and feature-rich 6-inch POS machine that caters to a variety of business needs, making it an ideal choice for businesses looking to streamline their operations and provide excellent customer service.
