Product Description:

At the heart of this cash register pos system is a powerful battery with a capacity of 3.8V 6400mAh (7.6V 3200mAh), ensuring long-lasting usage without the need for frequent recharging. This allows you to stay productive throughout your business day without interruptions, making it an ideal choice for busy retail environments.

With support for multiple languages, our POS Terminal caters to diverse customer bases and staff members, promoting seamless communication and ease of use. Whether you operate in a multilingual setting or have international clientele, this feature ensures that everyone can interact with the system effortlessly.

The inclusion of a TYPE C charging port further enhances the convenience of this device, offering fast and efficient charging capabilities. Say goodbye to cumbersome charging processes and enjoy quick recharging times, keeping your Handheld POS Machine ready for action whenever you need it.

Boasting a vibrant 6-inch screen display, this Terminal provides a clear and crisp view of your transactions, inventory, and other essential data. The 720*1440 IPS resolution delivers sharp visuals with accurate colors, making it easy to read and navigate through the interface with precision.

Customization is key in today's competitive market, and our POS Terminal allows you to stand out with a custom logo feature. Showcase your brand identity prominently on the device, reinforcing brand recognition and creating a professional image for your business.

Whether you run a small boutique shop or a bustling restaurant, our POS Terminal is designed to meet your needs with unmatched performance, reliability, and convenience. Upgrade your transaction processing capabilities and elevate your customer service with this innovative solution that combines functionality with style.
