- NFC: Support NFC
- Processor: T606, Up To 2.0GHz
- Highlight: **Android POS Cloud Management ,  
Android POS for Apparel Store**

## Product Description

### Product Description:

The Android POS product is a cutting-edge terminal Android POS machine that offers a wide range of features and functionalities to cater to various industries. With a large 6.5-inch screen size, users can enjoy a clear and vibrant display for their POS needs.

One of the standout features of this Android terminal POS machine is its compatibility with different apps in the app store, providing clients with a diverse selection of applications to choose from. This flexibility allows users to customize their POS system according to their specific business requirements, enhancing efficiency and productivity.

Designed to meet the needs of various industries, the Android POS product is suitable for catering establishments, retail stores, transportation services, and lottery outlets. Whether you are a software provider, POS hardware wholesaler, or end user, this versatile device offers the functionality and performance needed to streamline operations and improve customer service.

Moreover, the Android POS product supports multiple languages, making it ideal for businesses operating in multilingual environments. This feature ensures that users can interact with the POS system in their preferred language, enhancing user experience and reducing potential communication barriers.

### Features:

## Applications:

When looking for a versatile and efficient Android POS solution, the HANBU HB-P65 is the perfect choice. This desktop Android POS terminal is designed and manufactured in China, ensuring high quality and reliability. With certifications such as CE, FCC, and RoHS, you can trust in the safety and performance of this product.

The HANBU HB-P65 Android POS terminal is suitable for a variety of application occasions and scenarios. Whether you are in the catering industry, retail store business, transportation sector, or lottery business, this device can meet your needs. Its 6.5-inch screen size provides a clear and user-friendly interface for smooth operation.

One of the standout features of this Android POS terminal is its NFC support, allowing for convenient and secure transactions. Additionally, the free SDK offered for software integration makes it easy to customize the device to suit your specific business requirements.

With a minimum order quantity of just 1 unit, the HANBU HB-P65 is accessible for businesses of all sizes. The pricing is negotiable, and packaging details include 1 piece in one carton for easy shipment and storage.

For delivery, samples can be provided within 3-7 working days, while bulk orders can be discussed based on your requirements. Payment terms accepted include T/T and L/C, providing flexibility for your transactions.

With a supply ability of 20,000 pcs per month, you can rely on the HANBU HB-P65 Android POS terminal to meet your demands consistently. Furthermore, the availability of different apps in the app store allows clients to choose the software that best suits their business needs.
