Product Description

Product Description:

The Android POS product is a versatile and powerful solution designed to meet the needs of various industries, including catering, retail stores, transportation, and lottery establishments. This Android POS terminal is equipped with a robust battery capacity of 6400mAh, ensuring long hours of operation without the need for frequent recharging.

One of the key features of this Android POS terminal is the availability of a free SDK for software integration. This allows businesses to customize and tailor the POS system to their specific requirements, enhancing efficiency and productivity in their operations. Whether it is inventory management, sales tracking, or customer engagement, the Android POS terminal offers a seamless integration experience.

For added convenience and flexibility, the Android POS terminal provides access to different apps in the app store for clients to choose from. This allows businesses to select and install applications that best suit their unique needs and preferences, further enhancing the functionality and performance of the POS system.

With a vibrant 5.5-inch display, the Android POS terminal offers a clear and intuitive interface for users to navigate through various functions and features with ease. The touchscreen display provides a user-friendly experience, making transactions and operations smooth and efficient.

In summary, the Android POS product is a reliable and feature-rich solution for businesses in the catering, retail store, transportation, and lottery industries. With its long-lasting battery, free SDK for software integration, access to different apps in the app store, and a 5.5-inch display, this Android POS terminal is a versatile tool that can streamline operations and enhance customer service.

Features:

Product Name: Android POS

NFC: Support NFC

Processor: SC9863

Device management: Cloud Management Platform

Memory: 3GB RAM + 16GB ROM

Product Name: Smart Pos Terminal

Technical Parameters:

Application Industrial:	Catering, Retail Store, Transportation, Lottery
Supported Languages:	Multiple Languages
Processor:	SC9863
Connectivity:	Wi-Fi, Bluetooth, 4G
Screen Size:	5.5 Inch
Suitable Users:	Software Provider, Pos Hardware Wholesaler, End User
Battery Capacity:	6400mAh
Printer:	58mm
Using Scenarios:	Restaurant, Apparel Stores, Jewelry Shop
Device Management:	Cloud Management Platform

Applications:

The HANBU HB-P55 Android POS is a versatile and efficient dual screen pos terminal that is suitable for a variety of application scenarios. With its advanced features and reliable performance, this Android 13 pos terminal is ideal for use in the catering, retail store, transportation, and lottery industries.

Software providers can benefit from the HANBU HB-P55 Android POS by offering customized solutions to their clients. The device's powerful SC9863 processor and ample 3GB RAM + 16GB ROM memory ensure smooth and seamless operation for software applications.

Pos hardware wholesalers can capitalize on the HANBU HB-P55 Android POS due to its high-quality build and certification (CE, FCC, RoHS). The product's competitive pricing and low minimum order quantity of 1 make it an attractive option for wholesalers looking to expand their product offerings.

End users in various industries can enhance their operations with the HANBU HB-P55 Android POS. The device's front camera with 500 million pixels allows for clear and detailed image capture, making it suitable for tasks such as barcode scanning and customer identification.

Whether for point-of-sale transactions, inventory management, or customer engagement, the HANBU HB-P55 Android POS delivers reliable performance and flexibility. Its supply ability of 20000 pcs per month ensures consistent availability for bulk orders, with delivery times and payment terms to be discussed based on specific requirements.

Overall, the HANBU HB-P55 Android POS offers a comprehensive solution for businesses and individuals seeking a versatile and efficient pos terminal for a wide range of application occasions and scenarios.
