- Highlight: **Package Box Bill Counter ,  
Fully Automatic Bill Counter , 800g Bill Counter**

Product Description

Product Description:

A cash register is an essential tool for any cafe, providing a convenient and efficient way to process transactions and manage sales. The Cash Register for Cafe is equipped with a high-quality 8-inch LCD screen that ensures clear visibility of transaction details and pricing information. This large display size makes it easy for both customers and staff to view the items being rung up. Powered by a reliable battery, this cash register ensures uninterrupted operation during power outages or when moving the register to different locations within the cafe. The battery provides peace of mind knowing that transactions can still be processed even without a direct power source, making it a versatile solution for various cafe setups.

Under the hood, the Cash Register for Cafe is equipped with a powerful RK3562 CPU featuring 4 cores and running at 2.0GHz. This robust processing power ensures smooth and fast operation, allowing for quick transaction processing and efficient management of sales data. The CPU handles complex calculations and data processing with ease, enabling seamless operation during peak hours in the cafe. When it comes to power source options, the Cash Register for Cafe comes with an AC adapter for reliable and continuous power supply. This ensures that the cash register can operate consistently without any interruptions, providing a dependable solution for daily cafe operations. The AC adapter keeps the register powered throughout the day, so you can focus on serving customers without worrying about power issues.

With a display resolution of 800 x 1280 IPS, the Cash Register for Cafe delivers crisp and vibrant visuals that enhance the user experience. The high-resolution display ensures that transaction details and menu items are displayed with clarity and precision, making it easy to navigate through the interface and process orders efficiently. Whether you're inputting sales data or selecting items on the touchscreen, the display resolution offers a premium viewing experience.

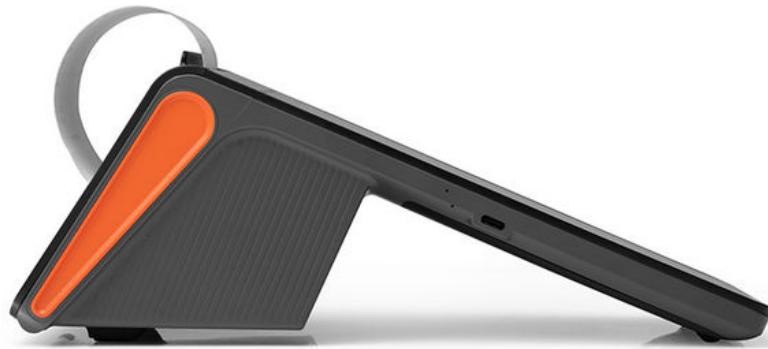

Overall, the Cash Register for Cafe is a versatile and reliable solution for managing transactions and sales in a cafe setting. Its combination of features such as the 8-inch LCD screen, battery backup, powerful CPU, AC adapter power source, and high display resolution make it a top choice for cafe owners looking for a robust cash register with touchscreen capabilities. Streamline your cafe operations and enhance customer service with the Cash Register for Cafe.
