Product Description

Product Description:

The Cash Register product is a modern POS system designed to streamline the checkout process for businesses of all sizes. Featuring an 8-inch LCD screen, this Cash POS Machine provides a clear and easy-to-read display for cashier and customer alike. The weight of the product is 800g, with a total package box weight of 1150g, ensuring it is lightweight and portable for convenient use. Equipped with a capacitive five-point touch screen, this Touchscreen Cash Register offers a responsive and intuitive interface for fast and accurate transactions. The model, Handheld POS_HB-P8, combines sleek design with practical functionality, making it an ideal choice for retail stores, restaurants, and other establishments. In addition, the Cash Register product features a built-in 2D bar code scanner using CMOS technology. This scanner allows for quick and efficient scanning of barcodes, enhancing the speed and accuracy of the checkout process. Whether scanning products or inputting information, this Cash Register is equipped to meet the demands of a busy retail environment.
