Product Description

Product Description:

The Cash Register for Online Store is an essential tool for any business looking to streamline its operations and improve its retail management system. With a display resolution of 800*1280 IPS, the Cash Register provides crisp and clear visuals that make it easy to navigate the interface and process transactions efficiently.

Equipped with 4G of RAM and powered by the RK3562 CPU with 4 cores running at 2.0GHz, this Cash Register delivers powerful performance to handle multiple tasks simultaneously without any lag. Whether you are managing inventory, processing payments, or generating reports, this Cash Register ensures smooth and reliable operation.

The LCD screen measures 8 inches, providing ample space to display all the necessary information for both the cashier and the customer. The touchscreen functionality allows for quick and accurate input, making transactions fast and convenient.

Despite its advanced features, the Cash Register is lightweight, weighing only 800g. When including the packaging box, the total weight is 1150g, ensuring easy portability and setup wherever you need it.

Overall, the Cash Register for Online Store is a versatile and efficient solution for businesses of all sizes looking to enhance their retail management system. With its high-quality display, powerful performance, and user-friendly design, this Cash Register is the perfect choice for streamlining operations and improving customer service.
