Applications:

Sunmi V3, a handheld POS Android 4G device, is a versatile and efficient solution for various product application occasions and scenarios. Whether you are a small business owner looking for an affordable POS system or a company in need of a reliable POS for ticketing services, the Sunmi V3 is an ideal choice.

With its compact design and powerful features, the Sunmi V3 is suitable for a wide range of businesses, including retail stores, restaurants, cafes, and more. Its advanced technology and user-friendly interface make it easy to process transactions, manage inventory, and track sales data effectively.

The Sunmi V3 is the perfect companion for businesses that require a portable and reliable POS system. Its dual Nano SIM card slots provide constant connectivity, ensuring that you can accept payments and provide services anywhere, anytime. The built-in GPS functionality, supporting GPS/Glonass/Beidou/Galileo, further enhances its utility for businesses on the move.

Moreover, the Sunmi V3 offers a generous memory capacity of 3GB+32GB, allowing you to store important data and applications with ease. The optional scanner feature adds convenience for businesses that need to scan barcodes or QR codes. The long-lasting 7.7V 3100mAh battery ensures uninterrupted operation throughout the day.

When it comes to product logistics, the Sunmi V3 is manufactured in China and comes with various certifications, including CE, FCC, RoHs, MSDS, and BIS. The minimum order quantity is only 1 unit, and the packaging details include 1pc/box or 5pcs/carton. With a delivery time of 4 - 7 working days, the Sunmi V3 ensures quick deployment for businesses in need of a reliable POS solution.

For businesses considering the Sunmi V3, payment terms are flexible with T/T options available. The supply ability of 15000 pieces per month guarantees that you will have access to this innovative POS device whenever you need it.
