Product Description

Product Description:

POS and restaurant management system that helps single or multi-locations restaurants seamlessly run front of house, back of house and guest engagement all on one platform.

Choosing a modern, convenient, and secure POS that is right-sized for your business is an important choice. Options for POS terminals include on-site, self-service, cloud computing, and mobile devices.

When choosing your POS setup, there are some options better suited to certain kinds of businesses. Carefully weigh your options and evaluate which is best for your business and customer needs.

The biggest decision your business needs to make is choosing your payment processing provider. Your payment processor may supply the POS hardware and software and handles the heavy lifting of transaction processing—so choosing the right partner is key for cost and service.

Applications:

Sunmi V3, a versatile handheld POS device with Android 4G capabilities, is designed to cater to a wide range of product application occasions and scenarios. This innovative device, originating from China, is certified with CE, FCC, RoHs, MSDS, and BIS standards, ensuring its reliability and quality.

The Sunmi V3 handheld POS is suitable for various business settings due to its flexibility and convenience. It is ideal for retail environments, enabling efficient transactions and inventory management. With its handheld design and touch screen interface, the Sunmi V3 is perfect for quick and seamless customer interactions.

Moreover, the Sunmi V3 is a reliable POS solution for hospitality businesses such as cafes, restaurants, and food trucks. Its fast print speed of up to 70mm/s ensures timely order processing, enhancing customer satisfaction. The optional NFC feature provides added convenience for contactless payments, making transactions smoother and more secure.

For businesses requiring 24/7 support, the Sunmi V3 handheld POS is a dependable choice. Its robust SUNMI OS, based on Android 13 64bit, offers stability and security for continuous operation. The device comes with a 1-year warranty, giving businesses peace of mind regarding its performance and longevity.

With a minimum order quantity of 1, negotiable pricing, and quick delivery time of 4 - 7 working days, the Sunmi V3 handheld POS offers convenience and flexibility for businesses of all sizes. The packaging details of 1pc/box and 5pcs/carton make it easy to manage inventory and distribution efficiently.

In addition, the Sunmi V3 has a supply ability of 15000 pieces per month, ensuring businesses can easily scale their POS solutions according to their needs. Payment terms via T/T provide flexibility for transaction processing, making it convenient for businesses to acquire this innovative handheld POS device.
