Applications:

HANBU HB-P55 Android POS is a versatile and reliable product suitable for various application occasions and scenarios. With its cutting-edge technology and innovative features, this Android terminal POS machine is perfect for a wide range of businesses and industries. Whether you are a software provider, a POS hardware wholesaler, or an end user, the HANBU HB-P55 Android POS is designed to meet your needs and exceed your expectations. Its flat capacitive touch screen and sleek design make it a user-friendly and modern solution for any business environment.

The HANBU HB-P55 Android POS is ideal for retail stores, restaurants, cafes, and other businesses that require a fast and efficient point of sale system. Its powerful SC9863 processor ensures smooth and reliable performance, while the 6400mAh battery capacity provides long-lasting usage without the need for frequent recharging.

With support for NFC technology, the HANBU HB-P55 Android POS allows for quick and secure transactions, making it a convenient choice for businesses of all sizes. The multiple language options make it accessible to a global audience, further expanding its usability and appeal.

Originating from China and certified with CE, FCC, and RoHS, the HANBU HB-P55 Android POS guarantees quality and compliance with international standards. The minimum order quantity of 1 unit and flexible pricing ensure accessibility for businesses of all sizes, while the packaging details of 1 piece in one carton make it easy to transport and store.

When it comes to delivery, samples can be received within 3-7 working days, and bulk orders can be discussed based on your specific requirements. Payment terms of T/T and L/C provide flexibility and convenience for transactions, while the supply ability of 20000 pcs per month ensures a steady availability of the product.
