Product Description

Product Description:

The Smart POS product is a cutting-edge handheld 5.5 inch smart pos terminal machine that revolutionizes the way businesses handle transactions. With support for multiple languages including English, Chinese, Spanish, French, and German, this smart cashier machine pos caters to a diverse range of users worldwide.

Equipped with a professional scanner that integrates 1D/2D barcode scanning capabilities, the Smart POS product offers seamless and efficient transaction processing for various applications such as banks and retail shops. The advanced scanner ensures quick and accurate scanning, enhancing the overall user experience.

One of the standout features of the Smart POS product is its 4-inch HD touch screen, which provides a user-friendly interface for easy navigation and operation. The high-definition display delivers crisp visuals, making it ideal for viewing transaction details and other information with clarity.

When it comes to payment options, the Smart POS product offers versatility and convenience. Users can choose from a range of payment methods including mobile wallet, NFC, bank card, and credit card, providing flexibility for both businesses and customers. Whether you are a small retail shop looking to streamline transactions or a large bank in need of a reliable point of sale solution, the Smart POS product is designed to meet your needs. Its compact size and powerful features make it a versatile and indispensable tool for businesses of all sizes.

Processor	Cortex-A53, Quad-core
Feature	IP53 Rated, The P2 SMARTPAD Can Sustain Liquid Spilling Or Splashing
Item	Financial Pinpad

Applications:

Sunmi's P2 smartpad is a cutting-edge smart payment terminal suitable for a variety of product application occasions and scenarios. With its innovative features and high-quality design, this Android smart pos machine is ideal for businesses looking to enhance their payment processing capabilities.

One of the key product attributes of the P2 smartpad is its IP53 rating, which means it can sustain liquid spilling or splashing. This makes it perfect for environments where spills are common, such as restaurants, cafes, and bars. The durability of the P2 smartpad also makes it suitable for outdoor events and markets where exposure to the elements is a concern.

Thanks to its 4 Inch HD Touch Screen, the P2 smartpad provides a user-friendly interface for both customers and employees. This makes it a great choice for retail stores, supermarkets, and convenience stores where quick and efficient transactions are essential.

Businesses in need of an imprimante smart pos will appreciate the P2 smartpad's powerful Cortex-A53, Quad-core processor, which ensures smooth and reliable performance. Its Android 9 Sunmi OS offers a familiar and customizable platform for running a variety of payment applications.

With certifications including CE, FCC, RoHs, and MSDS, the P2 smartpad meets international standards for quality and safety. This makes it a trusted choice for businesses in various industries, including hospitality, retail, and entertainment.

Whether you require a single unit or a larger order, the P2 smartpad offers flexibility with a minimum order quantity of 10. Pricing is negotiable, and packaging details include 1pc/box or 10pcs/carton for convenient shipping and storage. With a delivery time of 4-7 working days and payment terms of T/T or L/C, Sunmi ensures a seamless purchasing process for customers.

With a supply ability of 15000 pieces per month, Sunmi's P2 smartpad is ready to meet the demands of businesses large and small. Consider this smart payment terminal for your next point-of-sale solution and experience the convenience and efficiency it brings to your operations.
