Applications:

Hanbu P11 PRO Desktop POS is a versatile and efficient point-of-sale system designed to meet the needs of various businesses. With its advanced features and reliable performance, this POS system is suitable for a wide range of product application occasions and scenarios.

The Hanbu P11 PRO Desktop POS is perfect for retail stores, restaurants, cafes, and other businesses that require a reliable and user-friendly POS system. Its compact design and 11-inch touchscreen make it ideal for businesses with limited counter space or those looking for a more modern and streamlined checkout experience.

This POS system is equipped with a printer that supports a maximum paper roll diameter of 60mm and a paper width of 80mm, making it suitable for printing receipts and other essential documents. The built-in Bluetooth and WIFI modules enable easy connectivity and seamless integration with other devices and networks. Additionally, the USB ports provide flexibility for connecting peripherals and accessories.

The Hanbu P11 PRO Desktop POS is manufactured in China and certified with CE, FCC, and RoHS certifications, ensuring compliance with international standards for quality and safety. With a minimum order quantity of one sample, businesses can easily test and evaluate the system before making a larger purchase. The pricing is negotiable, and the packaging details include a standard carton package for safe and secure delivery.

With a delivery time of 5-7 working days and payment terms of T/T, businesses can quickly receive their orders and start using the POS system to improve their operations. The supply ability of 10000 pieces per month ensures a steady availability of the product for businesses with varying needs and demands.
