- Memory: 2GB RAM + 16GB ROM
- Highlight: **Android POS Machine Desktop POS, 800\*1280 IPS Incell Display Desktop POS, 2.4G 5G WIFI Module Desktop POS**

### Product Description:

Ideal for pop-up shops and markets, the HB-P11's ultra-portable design includes a detachable battery for all-day use without power outlets. Dual SIM cards ensure connectivity in remote locations, and the 80mm printer generates receipts or labels instantly. The scratch-resistant screen and military-grade CMF withstand frequent travel, while preloaded Android apps simplify mobile payments.

Built for festivals and outdoor vendors, this POS boasts a sunlight-readable 11-inch display and loudspeaker for noisy environments. The 6400mAh battery lasts 18+ hours, and IP54-rated casing resists dust and moisture. With GPS for mobile food trucks and WiFi/4G redundancy, it processes payments anywhere. The rapid 2D scanner handles high-volume ticket checks.

Engineered for harsh industrial settings, the HB-P11 features shockproof CMF materials and a Gorilla Glass touchscreen. Its pure cobalt battery operates in extreme temperatures (-20°C to 60°C), while the 8-core CPU runs legacy and modern apps simultaneously. The fixed 2D scanner captures codes on fast-moving conveyor belts, ideal for manufacturing QA.

### Features:

Enhanced security and compatibility with the latest business tools.

## Applications:

When considering the Product Application Occasions and Scenarios for the Hanbu P11 PRO Desktop POS, it is important to highlight its versatility and functionality in various settings. This desktop POS terminal, originating from China, is ideal for a wide range of businesses, particularly in the Pharmacy POS sector.

With certifications including CE, FCC, and RoHs, the Hanbu P11 PRO ensures compliance with quality and safety standards. Its compact design and advanced features make it a suitable choice for pharmacies looking to streamline their operations.

The Hanbu P11 PRO is perfect for pharmacies looking to enhance their checkout process with its efficient 1D/2D Bar Code Scanner (CMOS) and high-speed USB connectivity (2.4G/5G 802.11 A/b/g/n). The printer's Max. paper roll diameter of 60mm allows for easy printing of receipts and labels, catering to the specific needs of pharmacy businesses.

Moreover, the Display Resolution of 800\*1280 IPS Incell ensures clear visibility of transaction details and product information on the screen. The multiple slots available, including RJ11, RJ12, RJ45, USB A, DC, SIM, and Type-C, offer versatility in connecting various peripherals and accessories, further enhancing the functionality of this desktop POS machine.

Businesses can benefit from the Hanbu P11 PRO's quick Delivery Time of 5 - 7 working days, allowing for swift implementation of the system. The flexible Payment Terms of T/T and the option for ordering a Minimum Order Quantity of one sample make it convenient for pharmacies to test the product before making a larger purchase.

Additionally, the Hanbu P11 PRO's Supply Ability of 10000 pieces per month ensures consistent availability for pharmacies requiring multiple units. The Packaging Details in a standard carton package provide secure shipping, and the Price, to be negotiated, offers flexibility for businesses with varying budget requirements.

In conclusion, the Hanbu P11 PRO Desktop POS is a reliable and feature-rich solution for Pharmacy POS applications, offering advanced

technology, efficient performance, and ease of use for businesses seeking a desktop POS machine with Android capabilities.
