#### Convenient NFC payments.

Effortless SoftPOS payments with NFC. Customers can tap to pay on the checkout page without turning the device around.

## Product Description

### Product Description:

The Mobile POS is a cutting-edge solution designed for businesses looking for a versatile and reliable All-in-One POS system to streamline their operations. With a powerful memory capacity of 3GB+32GB, this mobile POS ensures smooth performance and efficient multitasking capabilities.

One of the key features of the Mobile POS is its optional scanner, which provides businesses with the flexibility to integrate scanning capabilities based on their specific needs. Whether it's for inventory management or customer checkouts, the optional scanner enhances the functionality of this mobile checkout system.

Supported by GMS, the Mobile POS offers seamless integration with Google Mobile Services, enabling businesses to access a wide range of Google apps and services for increased productivity and connectivity.

Equipped with a high-capacity 7.7V 3100mAh battery, the Mobile POS ensures long-lasting performance, allowing businesses to operate without interruptions throughout the day. The reliable battery life makes this POS system ideal for businesses that require mobile functionality and continuous operation.

The Mobile POS features a large 6.75" display screen, providing users with a clear and immersive viewing experience. The spacious screen size enhances visibility and usability, making it easier for users to navigate the system and access information efficiently.

Whether you are a retail store, restaurant, or spa looking for a comprehensive POS solution, the Mobile POS is designed to meet your specific business needs. With its robust memory capacity, optional scanner, GMS support, long-lasting battery, and large display screen, this mobile checkout system is a versatile and efficient tool for managing transactions and operations.

Integrate the Mobile POS with your Spa Management Software to create a seamless and efficient checkout process for your customers. Enhance the customer experience with a user-friendly POS system that is designed to optimize your spa operations and streamline your business processes.

In conclusion, the Mobile POS is a feature-rich and reliable solution for businesses seeking an advanced All-in-One POS system. With its powerful performance capabilities, optional scanner, GMS support, long-lasting battery life, and large display screen, this mobile checkout system offers a comprehensive solution for businesses across various industries.
