- Net Weight: 272g
- Display Screen: 6.75
- Protection: IP65 1.5m Drop Test (Concrete Floor)
- Dimensions(L*W*H): 175*79*15 Mm

Product Description

Product Description:

A Portable POS Device is an essential tool for businesses looking to streamline their payment processes and enhance customer service. One such innovative product is the Mobile POS, a compact and versatile device designed to meet the needs of modern businesses. Let's delve into the key features and benefits of this Portable POS Device:

Card Slot: The Mobile POS comes equipped with 1 Micro SD card slot and 1 PSAM card slot (Optional), allowing for secure and efficient transaction processing.

Dimensions(L*W*H): With dimensions measuring 175*79*15 mm, this Portable POS Device is compact and easy to carry, making it ideal for on-the-go businesses.

NFC: The Mobile POS supports NFC technology (Optional), enabling tap on screen support for SOFTPOS, EMVCo PCD L1 certification, and compatibility with ISO/IEC 14443 TypeA/B, Mifare, Felica, and ISO15693 standards. This ensures seamless and secure contactless transactions.

Scanner: The device also offers an optional scanner feature, providing businesses with the flexibility to incorporate scanning capabilities as needed.

Net Weight: Weighing in at 272g, the Mobile POS is lightweight yet durable, making it easy to handle during daily operations.

In conclusion, the Mobile POS is a feature-rich and reliable Portable POS Device that caters to the diverse needs of businesses in various industries. Its compact design, secure card slots, NFC support, optional scanner feature, and lightweight construction make it an ideal choice for businesses looking to enhance their payment processing capabilities. Invest in the Mobile POS today and take your business to new heights!

Wrist Strap

Applications:

Sunmi M3 Mobile POS is a versatile and innovative point-of-sale solution designed to meet the needs of various businesses across different industries. With its compact design and powerful features, the Sunmi M3 is an ideal POS station for a wide range of application occasions and scenarios.

One of the key product attributes of the Sunmi M3 is its certification, including CE, FCC, RoHs, MSDS, and BIS, ensuring high quality and compliance with international standards. This makes it a reliable choice for businesses looking for a trustworthy POS system.

For clothing stores, the Sunmi M3 Mobile POS offers a seamless and efficient checkout experience. Its compact size and sleek design make it perfect for small retail spaces, while its powerful performance enables quick and secure transactions. Whether used at a checkout counter or for mobile sales within the store, the Sunmi M3 is a versatile POS solution for clothing stores.

In AR shopping scenarios, the Sunmi M3 Mobile POS can enhance the shopping experience by enabling interactive and immersive features. With supported GSM and optional NFC capabilities, customers can tap on the screen to access AR shopping experiences, making the shopping process more engaging and enjoyable.

The Sunmi M3's dimensions of 175*79*15 mm make it highly portable, allowing businesses to use it in various locations such as pop-up stores, events, or outdoor markets. Its one-year warranty provides peace of mind to users, ensuring reliable performance and support.

With a minimum order quantity of 1 and a supply ability of 15000 pieces per month, the Sunmi M3 Mobile POS offers flexibility and scalability for businesses of all sizes. The pricing is negotiable, and the payment terms include T/T, making it convenient for businesses to acquire this innovative POS solution.

Whether you are looking for a reliable POS system for your clothing store, exploring new AR shopping experiences, or seeking a compact and powerful mobile POS solution, the Sunmi M3 is a versatile choice that combines quality, performance, and innovation.

Order now and experience the convenience and efficiency of the Sunmi M3 Mobile POS for your business!
