- Card Slot: 1*Micro SD 1*PSAM (Optional)
- Net Weight: 272g
- Cpu: Qualcomm Hexa-core
- GPS: GPS/Glonass/Beidou/ Galileo
- Warranty: 1 Year
- Battery: 7.7V 3100mAh

Product Description

Product Description:

The Mobile POS system, also known as the AR Shopping POS, is a versatile and innovative solution designed to revolutionize retail transactions. With a warranty of 1 year, this cutting-edge device operates on SUNMI OS, which is based on Android 14 64bit, ensuring smooth and reliable performance for businesses of all sizes.

One of the key features of the Mobile POS is its optional scanner, which provides added flexibility for businesses that require barcode scanning capabilities. This feature allows for efficient inventory management, quick checkouts, and seamless integration with existing systems.

The device boasts a vibrant 6.75-inch display screen, providing users with a clear and intuitive interface for processing transactions and accessing information. The large screen size enhances visibility and user experience, making it ideal for busy retail environments.

Equipped with a powerful 7.7V 3100mAh battery, the Mobile POS offers extended usage time, ensuring that businesses can operate smoothly throughout the day without interruptions. This long-lasting battery is designed to meet the demands of a fast-paced retail environment, providing reliable performance when it is needed the most.

Whether you are looking for a Cloud POS System, Tablet POS System, or a comprehensive retail solution, the Mobile POS offers a seamless and efficient way to manage transactions, track inventory, and streamline operations. Its versatile design and advanced features make it a valuable asset for businesses seeking to enhance their point-of-sale experience and drive growth.

Experience the future of retail transactions with the Mobile POS system. Its innovative technology, reliable performance, and user-friendly interface make it the ideal choice for businesses looking to optimize their operations and provide exceptional service to their customers. Invest in the Mobile POS today and take your retail business to new heights.

Shoulder Strap

Lanyard

Introducing SUNMI OS 4.0. Delivers an improved interaction experience.

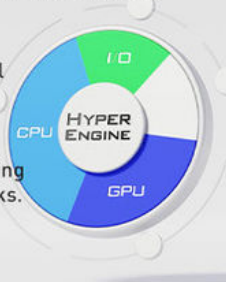

Plug-and-Play Enterprise Desktop

Pre-configured with standardized apps and workflows for instant deployment, minimal onboarding time, and reduced operational costs.

Dynamic CPU Resource Allocation

Prioritizes critical business apps in real-time to ensure peak performance during high-demand tasks.

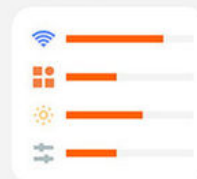

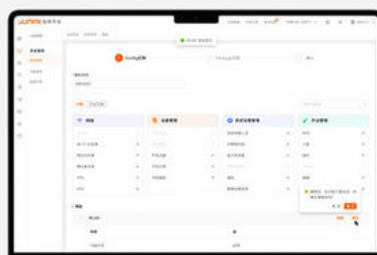

Advanced Security Suite

End-to-end protection for user data and privacy with enterprise-grade safeguards.

High-Density WLAN Optimization

Stable connectivity in high-concurrency scenarios (e.g., mobile stocktaking), eliminating downtime and data loss.

Applications:

Sunmi M3 is a cutting-edge Mobile POS system designed to revolutionize the way businesses process transactions. With its advanced features and high-quality components, the Sunmi M3 is the perfect solution for a wide range of Product Application Occasions and Scenarios.

As a Wireless Point of Sale Terminal, the Sunmi M3 is ideal for businesses looking to streamline their checkout process and provide customers with a seamless payment experience. Its compact size and touchscreen interface make it easy to use in various settings, such as retail stores, restaurants, and events.

The Sunmi M3 is a versatile POS Station that can be used in multiple industries, including retail, hospitality, and entertainment. Whether you need to accept payments on the go or at a fixed location, the Sunmi M3 offers the flexibility and reliability you need.

Originating from China, the Sunmi M3 is built to meet international standards, with certifications including CE, FCC, RoHs, MSDS, and BIS. This ensures that the product is safe, reliable, and compliant with regulations in various countries.

With a minimum order quantity of 1 and competitive pricing that can be negotiated, the Sunmi M3 is accessible to businesses of all sizes. The packaging details of 1pc/box and 5pcs/carton make it easy to order and distribute the devices efficiently.

Thanks to its Qualcomm Hexa-core CPU, the Sunmi M3 delivers fast and reliable performance, while the 3GB+32GB memory provides ample storage for your applications and data. The built-in GPS functionality, supporting GPS/Glonass/Beidou/Galileo, enables location-based services and navigation.

The Sunmi M3 also features a powerful 7.7V 3100mAh battery that ensures long-lasting usage without the need for frequent recharging. Additionally, the NFC support allows for convenient contactless payments and compatibility with various NFC standards, making it an excellent choice for businesses adopting modern payment technologies.

With a supply ability of 15000 pieces per month and a delivery time of 4-7 working days, the Sunmi M3 offers a reliable and efficient solution for businesses seeking to upgrade their POS systems. Payment terms via T/T make transactions straightforward and secure.
