3. Convenience Store

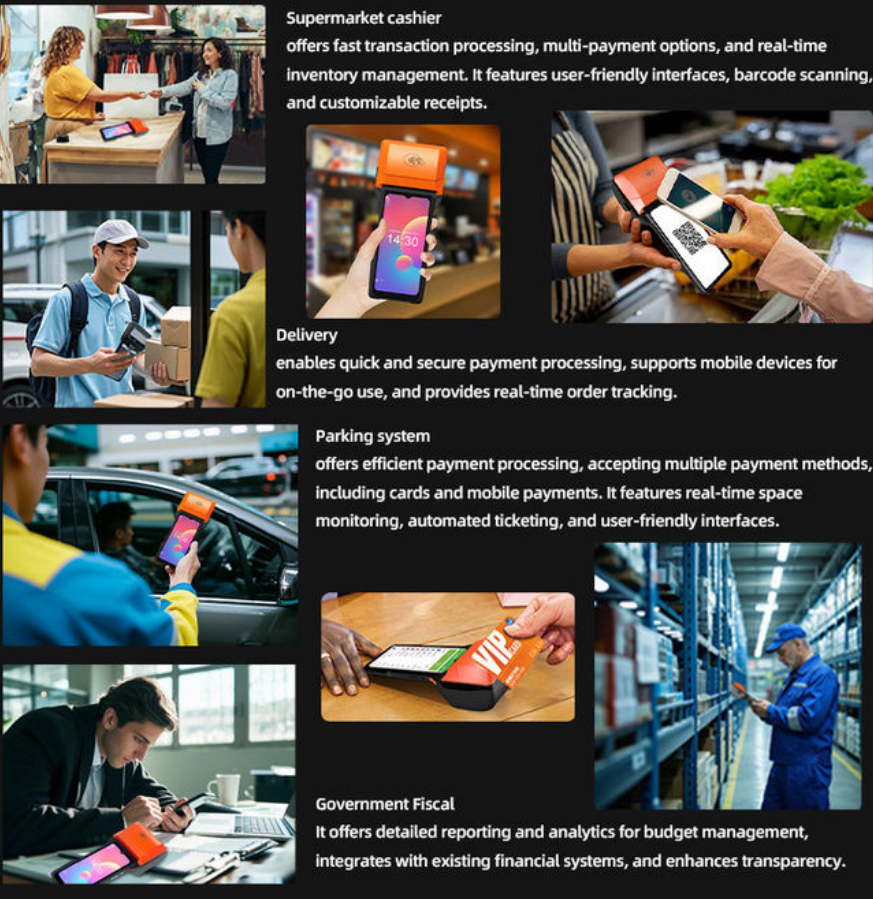

4. Parking System

5. Bus Ticketing

6. Taxation

Supermarket cashier
offers fast transaction processing, multi-payment options, and real-time inventory management. It features user-friendly interfaces, barcode scanning, and customizable receipts.

Delivery
enables quick and secure payment processing, supports mobile devices for on-the-go use, and provides real-time order tracking.

Parking system
offers efficient payment processing, accepting multiple payment methods, including cards and mobile payments. It features real-time space monitoring, automated ticketing, and user-friendly interfaces.

Government Fiscal
It offers detailed reporting and analytics for budget management, integrates with existing financial systems, and enhances transparency.

Key Features & Advantages:

Ultimate Mobility with 4G & All-Day Power:

Feature: Built-in 4G LTE + Massive 6400mAh Battery.

Advantage: Truly untethered operation. Process payments and manage orders at markets, food trucks, delivery points, or client sites without relying on Wi-Fi. The huge battery lasts all day (or multiple days for light use), freeing you from power outlets. Work wherever your business takes you.

Built-in Printing - Professionalism Anywhere:

Feature: Integrated 80mm thermal printer included.

Advantage: Provide customers with a professional printed receipt immediately, even at a pop-up stall or during a delivery. Enhances customer trust and satisfaction without carrying extra equipment.

Complete Payment Acceptance:

Feature: NFC (Contactless/Tap-to-Pay), Connectivity for Card Readers (via Bluetooth/USB), Cameras for potential soft scanning.

Advantage: Accept all popular payment methods: contactless cards, mobile wallets (Apple Pay, Google Pay), traditional chip/swipe cards, and cash. Never miss a sale because you couldn't take a payment.

Ready-to-Run Android 14 with GMS:

Feature: Android 14 OS with Google Mobile Services certification.

Advantage: Set up quickly! Download your preferred POS app, delivery management software, or business tools directly from the Google Play Store. Enjoy a secure, stable, and familiar platform right out of the box.

Compact & Rugged Design:

Feature: 6.5-inch screen, integrated design with printer.

Advantage: Fits easily in a delivery bag, on a small counter, or in a vehicle. The all-in-one design is more durable and easier to manage on the move than separate devices.

Incredible Value Package:

Feature: Powerful 8-core processor, 3GB/32GB, Android 14, GMS, Printer, 4G, NFC, huge battery, charger, cable, AND starter paper roll.

Advantage: Get a feature-rich, professional-grade mobile POS system with everything you need to start accepting payments immediately, all at a highly competitive price point. Maximize your return on investment.

Why Choose the T606 for Mobility?

The P65 is the ultimate mobile business partner. Its combination of reliable 4G connectivity, exceptional battery life, built-in receipt printing, and full payment acceptance (including NFC) empowers delivery drivers, market vendors, food truck operators, and service technicians to process transactions professionally and efficiently, anywhere, anytime. Packed with features and ready to use, it delivers outstanding value for growing mobile businesses. Ditch the clipboard and upgrade to a complete mobile POS solution!
