SUNMI V3 POS System: Elevate Your Business with Cutting - Edge Technology

Our Product Introduction

Basic Information

- Place of Origin: People's Republic of China
- Brand Name: Sunmi
- Certification: Rohs , CE , FCC
- Model Number: T5F1A / V3
- Minimum Order Quantity: 10pc
- Price: to be negotiated
- Packaging Details: 15pcs / carton
- Delivery Time: 3-5 working days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 12000 pcs / month

Product Specification

- Item Name: Check Out Pos
- Feature: 6.75inch Large Screen
- CPU: Qualcomm Hexa-core
- NFC: Support Softpos Payment With NFC
- Printer: Support Label And Receipt Dual Print
- Scanner: Laser 2D Scanner
- GMS: GMS Certified
- Warranty: 3 Years Warranty
- Highlight: **SUNMI V3 POS terminal with warranty**, **POS system for business efficiency**, **cutting-edge POS terminal technology**

Product Description

SUNMI V3 POS System: Elevate Your Business with Cutting - Edge Technology

Product Model	T5FIA
CPU	Qualcomm hexacore
OS	Android 13 64bit)
Memory	3GB + 32GB
Display	6.75" HD+, 720*1600, IPS
Touch Screen	Capacitive multi - touch Screen
GMS	Optional
Dimensions	238*81.8*16.8 mm
AdapterInput	AC 100 - 240V
AdapterlOutput	5V/2A
Pogo Pin	6 Pin Extend USB OTG
Battery	Removable 7.7V 3100mAh

Smart Mobile Terminal

SUNMI V3 New

Beyond the classics, unveiling a new era of digital experience.

Powered by **SUNMI OS** Compatible with **SUNMI DMP** Powered by **SUNMI** G Google Mobile Services

Embrace 3rd gen aesthetic, slimmer, sleeker, and infinitely stylish.
V3 measures 16.7mm thick, featuring a metallic spray paint process.

Elevated visuals for immersive experiences.
The 6.75" HD+ screen with 420 nits brightness offers a wider field of view and exquisite clarity.

Performance upgrades, tackling multitasking seamlessly.
The Qualcomm hexa-core high-performance processor, 3GB+32GB of large storage, and the UFS interface protocol allow for effortless multitasking and large file storage.

Advanced features, catering to multi-scenario needs.
Contactless payments are supported by SoftPOS via NFC. Mainstream payment methods like QR code payment are available. High-speed laser barcode scanning in just about any ambient lighting boosts efficiency.

Product Description

The SUNMI T5FIA POS system stands out as a premium solution for modern businesses. At its core, the Qualcomm hexacore CPU delivers robust processing power, paired with SUNMI OS built on Android 13 64bit, creating a seamless and intuitive operating experience. The 3GB RAM and 32GB storage combination ensures that the system can run multiple business applications simultaneously without lag, while also providing sufficient space for transaction records and customer data.

The 6.75 - inch HD+ IPS display is a highlight, offering vivid colors and sharp details. Its capacitive multi - touch functionality makes navigation effortless, whether employees are entering product codes, processing payments, or accessing reports. When it comes to printing, the high - speed 58mm thermal printer is a game - changer. It whips out receipts and labels at a maximum speed of 80mm per second, and can accommodate rolls up to 50mm in diameter, reducing the frequency of roll changes during busy periods.
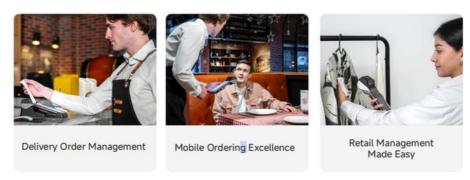

Connectivity is a strong suit of the T5FIA. It supports 4G, 5G, and 2G cellular networks, ensuring reliable internet access even in areas with limited Wi - Fi coverage. The dual Nano SIM card slots provide redundancy, so if one network fails, the system can switch to the other seamlessly. For local connections, Wi - Fi (supporting both 2.4GHz and 5GHz bands with IEEE 802.11 a/b/g/n/ac) and Bluetooth (covering versions 2.1 to 5.0, including BLE) enable quick pairing with printers, scanners, and other peripherals.

Location services are comprehensive, with support for GPS, Glonass, Beidou, and Galileo, ensuring accurate tracking for delivery services or location - based promotions. The rear camera, with 5MP auto - focus and a flash LED, can read 1D and 2D barcodes, and an 8M option is available for those needing higher - resolution imaging. Optional features such as GMS, a dedicated scanner, and NFC allow businesses to tailor the system to their exact needs, whether that's accessing Google services, scanning barcodes more efficiently, or enabling contactless payments.

Additional hardware features include two PSAM slots for secure transactions, a Micro SD card slot for expanding storage, a USB Type - C OTG port for connecting external devices, and a 6 - pin Pogo Pin for extended USB OTG capabilities. The 95dB speaker ensures that audio prompts and notifications are heard clearly, even in noisy environments. The removable 7.7V 3100mAh battery provides enough power to last through a full day of operation, and the included adapter (compatible with AC 100 - 240V input and providing 5V/2A output) makes charging convenient worldwide. Measuring 2388116.8 mm and weighing 419g (with battery), the T5FIA is compact and lightweight, easy to carry and maneuver. It can operate in temperatures from - 10°C to 50°C and be stored in temperatures ranging from - 20°C to 60°C, making it suitable for use in diverse climates.

Optional accessories like a multi - function cradle for charging and device management, a silicon cover for protection, screen tempered glass for added durability, a sling, and a hand strap further enhance the system's usability and longevity.

SUNMI V3 Application Scenario

Delivery Order Management

Mobile Ordering Excellence

Retail Management Made Easy

Feature upgrades for versatile use.

Upgraded Dual Printing Capability

Receipt Printing
Improved dustproof design for extended printer lifespan.
Next-gen font library for clearer receipt printing.
Up to a 50mm OD paper roll supported.

Label Printing
SUNMI smart algorithm supports multiple label types.
• Pre-printed label
• Special-shaped label
• Color label
• Ultra-thin liner label
• Black mark label

Ready for SoftPOS Payments With NFC
Effortlessly meet your mobile payment requirements with swift NFC payments.
* The V3 Family complies with the EMVCo PCD L1 certification standards

Laser 2D Barcode Scanner
Experience **unparalleled accuracy** with our laser guidance system, **ensuring precise targeting** for both 1D and 2D barcode recognition. Effortlessly scan even damaged, wrinkled or stained barcodes with ease and reliability.

Feature

Fashion Retail: In clothing stores, the T5FIA can be used to check product availability across stores, process payments, and print labels for new stock. The high - resolution display makes it easy to show customers product images and details.

Grocery Stores: For scanning groceries, processing payments, and printing receipts, the T5FIA's fast printer and barcode - reading capabilities (via camera or optional scanner) streamline the checkout process. The expandable storage can hold a large product database.

Event Venues: At concerts, festivals, or trade shows, the POS system can handle ticket sales, merchandise purchases, and food and beverage transactions. Its portability and long battery life make it ideal for temporary setups.

Car Rental Services: The T5FIA can manage vehicle check - in and check - out, process rental payments, and capture customer information. The GPS feature helps track vehicle locations, and the camera can scan driver's licenses or vehicle identification numbers.

Pharmacies: Pharmacists can use the system to process prescriptions, handle payments, and manage inventory. The secure PSAM slots ensure compliance with data security regulations.

Advantages

Boosted Productivity: The fast CPU and efficient printer minimize wait times, allowing businesses to handle more transactions and increase overall productivity.

Enhanced Customer Engagement: The clear display and ability to show product information help engage customers, leading to more informed purchasing decisions and higher sales.

Greater Adaptability: With a range of connectivity options and optional features, the T5FIA can be adapted to fit various business scenarios and evolving needs.

Reduced Downtime: The durable construction, reliable battery, and wide operating temperature range ensure the system stays operational, reducing disruptions to business operations.

Improved Data Security and Management: The PSAM slots and ample storage help secure transaction data and manage business information effectively, supporting compliance and business intelligence.

Scalable Investment: Businesses can start with the essential features and add optional components as they expand, making the T5FIA a cost - effective long - term investment.

Packing list and package :
Sunmi V3 * 1
Adaptor * 1
Warranty card and user manual * 1
USB cable * 1

1pc in one box , 15pcs in one carton.
