

Sunmi L2Ks Android 11 Rugged Pda Barcode Scanner 4G Wi-fi NFC Handheld Mobile Computer Inventory Management System Pda Android

Our Product Introduction

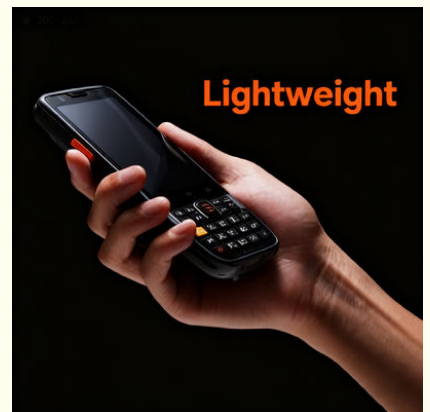

Basic Information

- Place of Origin: China
- Brand Name: Sunmi
- Certification: ISO9001,ROHS,CE
- Model Number: L2Ks
- Minimum Order Quantity: 1
- Delivery Time: 5-7 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 PCS/months

Product Specification

- Operating System: Android 11
- Processor Type: Intel
- Memory Capacity: 4GB RAM+32GB ROM
- Style: Handheld Computer
- Private Mold: Yes
- Products Status: Stock
- Communication: 4G/3G/2G
- Weight: 245g
- Highlight: Sunmi L2Ks rugged PDA barcode scanner, Android 11 handheld mobile computer, 4G NFC inventory management PDA

Product Description

SUNMI L2Ks: Ergonomic Scanner for Fresh Food & Grocery Picking

CPU	Octa-core processor
Operating System	Android 11
Memory	4GB RAM+32GB ROM
Bluetooth	Bluetooth 5.0 BLE
GPS	AGPS GPS/Glonass/Beidou/Galileo
Buttons	1* Function button 2* Left and right scan buttons 23* Physical buttons
Microphones	2* MIC
Battery	lithium battery

Product Description

The SUNMI L2Ks addresses the unique challenges of fresh food retail—messy environments, frequent price changes, and time-sensitive picking—with user-centric design and robust performance. Its slim waistline and textured grip ensure secure handling, even with wet or gloved hands, while the 240g weight prevents fatigue during long picking shifts .

Barcode scanning excels in grocery conditions. Fresh food packages often have smudged, wrinkled, or moisture-covered

barcodes, but the L2Ks' advanced engine reads them instantly, avoiding delays at checkout or during order fulfillment . The 1m scanning distance lets workers scan items on high shelves without ladders, improving safety and efficiency.

Price management is simplified via NFC. Staff can tap the device to NFC price tags to adjust prices for promotional items or expiring produce, updating the POS system in real time . This eliminates manual price sticker changes and reduces pricing errors, a common issue in busy grocery stores.

The 13MP rear camera with flash serves dual purposes: capturing clear images of fresh produce for online store listings and documenting quality issues (e.g., bruised fruit) for supplier claims . The front 5MP camera (optional) supports contactless customer interactions, such as scanning loyalty cards or processing mobile payments.

Durability handles retail chaos: IP68 protection resists spills from liquid products and cleaning solutions, while 1.8m drop resistance safeguards against falls from shopping carts or checkout counters . The device's sealed ports prevent food particles from entering, reducing maintenance needs.

Connectivity and battery support peak hours. Dual-band Wi-Fi ensures stable connections in crowded stores, syncing picked items to online order systems instantly . The 5000mAh battery lasts through morning and evening rush hours, with the option to swap batteries mid-shift using the backup battery design.

In grocery scenarios, the L2Ks optimizes order picking: workers receive online orders via the device, scan items as they pick them, and get real-time confirmation of correct selections. For in-store operations, it speeds up inventory checks of perishables, ensuring stock levels are updated before items expire. During peak times, cashiers use it as a mobile checkout tool, scanning items and processing payments anywhere in the store to reduce line lengths. The device's compatibility with retail SaaS solutions (e.g., inventory management, loyalty programs) makes it a seamless addition to existing systems.

Product Advantages

Mess-Proof Performance: Reads smudged/moist barcodes on fresh produce packaging—90% more accurately than standard retail scanners that fail with condensation or juice spills.

Food-Safe Design: Food-grade ABS housing resists bacteria growth and survives 75% alcohol disinfection—critical for compliance in grocery environments, unlike plastic-bodied alternatives.

Dual-Purpose Camera: 13MP HDR rear camera captures high-quality produce images (for online listings) and scans damaged barcodes—eliminating the need for separate devices.

Product Features

NFC Capabilities: Tap-to-update price tags, syncing instantly with POS systems to reduce pricing errors in promotional or expiring items.

Ergonomics: Anti-slip grip + 240g weight prevent drops; usable with wet/gloved hands common in meat/dairy sections.

Battery: Low-power mode extends 10% battery to 2 extra hours, ensuring coverage through morning/evening rushes.

Display: 4" anti-glare touchscreen with 178° viewing angle—visible under bright grocery lighting.

Packing list and package :

Sunmi L2Ks * 1

Adaptor * 1

Warranty card and user manual * 1

USB cable * 1

1pc in one box , 15pcs in one carton.

FAQ

Could you provide product samples?

Yes, we can provide some free samples, but you must pay for the express delivery.

What are your delivery terms?

We accept FOB, CFR, CIF, etc. You can choose the most convenient or the most cost-effective one.

How quickly can I get the product quotation?

We usually quote within 24 hours after receiving your inquiry. If you urgently need to obtain the price, please feel free to call us or give us your email so that we can give priority to your inquiry.

Could you print our logo on the product?

Yes. We can print your logo on the product. There are laser and silk-screen coloring methods.

How is the preparation time for shipment?

To be honest, it depends on the order quantity and the season when you place your order. As usual, the delivery time for sample orders is approximately 3 to 7 working days. The delivery time for bulk orders is approximately 8 to 15 working days.

What payment methods do we have?

We have many payment methods. We have different payment methods for different countries, (wire transfer, PayPal, Western Union...) Please contact our colleagues to learn about the detailed payment methods.
