

SUNMI L2H Healthcare-Compliant Handheld Solution

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Sunmi
- Certification: ISO9001,ROHS,CE
- Model Number: L2H
- Minimum Order Quantity: 1
- Delivery Time: 5-7 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50000 PCS/months

Product Specification

- Operating System: Android 11
- Processor Type: Intel
- Memory Capacity: 4GB RAM+32GB ROM
- Style: Handheld Computer
- Private Mold: Yes
- Products Status: Stock
- Communication: 4G/3G/2G
- Weight: 245g
- Highlight: **SUNMI L2H healthcare data collector, handheld data collector with compliance, healthcare-compliant SUNMI handheld device**

Product Description

SUNMI L2H: Healthcare-Compliant Handheld Solution

Card Slots	1×Nano SIM, 1×PSIM, 1×ISAM, 1×TF
Audio	1×1W Speaker, 2× Microphones
Accessories (Optional)	Single Charging Base, Charging Base, Trigger Handle, UHF Trigger Handle, Hand Strap, 4-Slot Charging Base, 4-Slot Battery Charger, Protective Case
Speaker & Microphones	1W Speaker, Dual Mics for Noise-Canceling
Battery	5000mAh Removable + 60mAh Non-removable Polymer Lithium
OS	Android 11
NFC	Support NFC
Ruggedness	IP67, 1.5m Drop Spec

Product Description

The SUNMI L2H Healthcare Edition is a specialized enterprise handheld device designed to meet the strict demands of healthcare environments—hospitals, pharmacies, home healthcare, and labs—where infection control, data security, and reliability are critical. It complies with GB/T31492-2015 standards for antimicrobial and corrosion-resistant materials, ensuring the surface inhibits bacterial growth and withstands frequent disinfection with medical-grade cleaners. The device's rugged design (IP67, 1.5m drop, -20 to 55 operation) makes it suitable for diverse healthcare settings, from medical freezers storing

vaccines to busy nursing stations. Patient care is streamlined with cloud-based ID decoding that instantly scans patient wristbands, national IDs, or insurance cards to pull up medical records, reducing identification errors by 80%. AI face recognition with liveness detection adds an extra layer of accuracy for patient matching. A one-touch intercom feature enables instant communication between nurses, doctors, and pharmacies, speeding up care coordination. The 5000mAh removable battery and 18W fast charging ensure it stays operational through 12-hour nursing shifts, while NFC support enables contactless medication tracking via RFID-enabled pill bottles.

Product Advantages

- Infection Control: Antimicrobial coating compliant with GB/T31492-2015 reduces bacterial growth by 99%, lowering healthcare-associated infection risks and simplifying disinfection routines.
- Accurate Patient Care: Cloud-based ID decoding and AI face recognition cut down patient identification errors by 80%, preventing medication mix-ups and improving treatment outcomes.
- Faster Care Coordination: One-touch intercom enables instant communication between departments, reducing response time for emergency requests by 50%.
- Versatile Healthcare Use: Operates in medical freezers (-20) and busy wards, replacing separate devices for medication tracking, patient ID, and inventory management.
- 24/7 Reliability: Removable battery and fast charging ensure uninterrupted use during long shifts, while rugged build withstands accidental drops in busy healthcare settings.

Product Features

- Healthcare Compliance: GB/T31492-2015 antimicrobial & corrosion-resistant materials; compatible with medical-grade disinfectants.
- Patient Identification: Cloud-based ID decoding (wristbands, national IDs, insurance cards); AI face recognition with liveness detection.
- Communication: One-touch intercom feature; dual noise-canceling microphones; 1W speaker.
- Durability: IP67 certification; 1.5m drop rating; -20 to 55 operating temperature.
- Battery & Performance: 5000mAh removable battery; 18W QC3.0 fast charging; SUNMI OS 4.0 (Android 11); Kyro-260 octa-core CPU.
- Tracking & Connectivity: 16MP camera (barcode scanning for medication); NFC (RFID medication tracking); 5G, Wi-Fi 6.

Packing list and package :

Sunmi L2H * 1

Adaptor * 1

Warranty card and user manual * 1

USB cable * 1

1pc in one box , 15pcs in one carton.

FAQ

Could you provide product samples?

Yes, we can provide some free samples, but you must pay for the express delivery.

What are your delivery terms?

We accept FOB, CFR, CIF, etc. You can choose the most convenient or the most cost-effective one.

How quickly can I get the product quotation?

We usually quote within 24 hours after receiving your inquiry. If you urgently need to obtain the price, please feel free to call us or give us your email so that we can give priority to your inquiry.

Could you print our logo on the product?

Yes. We can print your logo on the product. There are laser and silk-screen coloring methods.

How is the preparation time for shipment?

To be honest, it depends on the order quantity and the season when you place your order. As usual, the delivery time for sample orders is approximately 3 to 7 working days. The delivery time for bulk orders is approximately 8 to 15 working days.

What payment methods do we have?

We have many payment methods. We have different payment methods for different countries, (wire transfer, PayPal, Western Union...) Please contact our colleagues to learn about the detailed payment methods.
