Dimensions	245.6*164.4*9.9mm (thinnest)

SUNMI M2 MAX Enterprise Tablet

Professional, powerful and efficient.

Product Description

The Sunmi M2 MAX Portable Order & Payment Kiosk is a game-changer for food service businesses seeking to streamline order taking and payment processing. Designed with portability in mind, it weighs just 2.5 pounds and measures 10×8×3 inches—small enough to fit on crowded café counters or food truck dashboards, yet robust enough to withstand the demands of busy kitchens. Powered by Android 9 (customized for food service apps), it runs menu management, order routing, and payment processing software without glitches, even when handling multiple orders at once. With 4GB RAM and 64GB ROM (expandable to 256GB), it stores large menu databases, high-resolution food images, and transaction records with ease. The kiosk supports seamless integration with wireless headsets (for cashiers to communicate with kitchen staff), kitchen printers (to send orders directly to the prep area), and cash drawers (for cash payments), creating a fully connected food service ecosystem. Whether customers order in-person, via the kiosk, or through a mobile app, the M2 MAX ensures orders are accurate, payments are secure, and food is prepared quickly—boosting customer satisfaction and staff productivity.

Product Advantages

Cuts order errors by 35% by allowing customers to select items directly from the kiosk (reducing miscommunication between staff and customers).

Frees up staff time—cashiers no longer need to take orders manually, enabling them to focus on food preparation or customer service.

Increases average order value by 15% with built-in upsell prompts (e.g., “Add fries to your burger?”) on the kiosk interface.

Adapts to any food service setting—works indoors (restaurants/cafés) and outdoors (food trucks/festival stalls) with 4G LTE and long battery life.

Product Features

Compact, lightweight design for easy portability and placement in space-constrained areas.

Android 9 OS with regular security updates, ensuring protection against data breaches and cyber threats.

High-brightness touchscreen (500 nits) that remains visible in direct sunlight—ideal for outdoor food trucks.

Integrated GPS (optional) for food delivery tracking, helping food trucks manage route planning and order dispatch.

Packing list and package :

Sunmi M2 MAX * 1

Adaptor * 1

Warranty card and user manual * 1

USB cable * 1

1pc in one box.

FAQ

Could you provide product samples?

Yes, we can provide some free samples, but you must pay for the express delivery.

What are your delivery terms?

We accept FOB, CFR, CIF, etc. You can choose the most convenient or the most cost-effective one.

How quickly can I get the product quotation?

We usually quote within 24 hours after receiving your inquiry. If you urgently need to obtain the price, please feel free to call us or give us your email so that we can give priority to your inquiry.

Could you print our logo on the product?

Yes. We can print your logo on the product. There are laser and silk-screen coloring methods.

How is the preparation time for shipment?

To be honest, it depends on the order quantity and the season when you place your order. As usual, the delivery time for sample orders is approximately 3 to 7 working days. The delivery time for bulk orders is approximately 8 to 15 working days.

What payment methods do we have?

We have many payment methods. We have different payment methods for different countries, (wire transfer, PayPal, Western Union...) Please contact our colleagues to learn about the detailed payment methods.
