- Model: T6F0A
- Operating System: Android 13
- Highlight: **SUNMI P3 AIR POS terminal, lightweight payment terminal 313g, 6.75 inch HD+ touchscreen POS**

Product Description

Product Description:

In today's fast-paced business landscape, efficiency, portability, and security are non-negotiable. The SUNMI P3 AIR Smart Payment Terminal emerges as a game-changer, designed to redefine how businesses handle transactions, operations, and customer interactions across diverse scenarios. Blending sleek design with robust performance, this handheld device packs powerful features into a lightweight frame, making it an indispensable tool for restaurants, retail stores, takeout services, delivery teams, and more.

At its core, the SUNMI P3 AIR embodies the mantra "Convenience in hand, mighty in payment." Powered by SUNMI OS (based on Android 13) and equipped with a Qualcomm octa-core 2.4 GHz processor, it delivers seamless multitasking capabilities, ensuring smooth operation even when running multiple business-critical apps simultaneously. Whether you're processing payments, managing inventory, scanning shipping labels, or assisting customers, the device responds with lightning speed, eliminating delays and enhancing productivity. What sets the SUNMI P3 AIR apart is its versatility. It's not just a payment terminal—it's a comprehensive business management solution. With support for multiple payment methods (QR code, NFC, swipe, chip) and a suite of professional-grade hardware, including a high-performance scanner and upgraded rear camera, it adapts to the unique needs of each industry. Additionally, its rugged build, IP65 rating for water and dust resistance, and ability to withstand 1.5-meter drops onto concrete ensure durability in even the most demanding work environments.

Security is a top priority for SUNMI, and the P3 AIR doesn't disappoint. Certified to meet global security standards such as PCI PTS 6.X, EMV L1 & L2, Visa payWave, MasterCard PayPass, and American Express Certification, it provides financial-grade security for every transaction. Features like dual-sided NFC sensing, under-screen NFC payment, and Remote Key Injection (RKI) further reinforce data protection, giving businesses and customers peace of mind.

From its lightweight 313g body and slim 15.9mm profile to its 6.75" HD+ display with vivid visuals, the SUNMI P3 AIR is engineered for comfort and usability. Long shifts are made easier with its ergonomic design, while the metal-textured finish adds a touch of modern tech aesthetic that aligns with any brand identity. Plus, with customizable branding options—including logo and color application—and a wide range of accessories, businesses can tailor the device to reflect their unique personality while expanding its functionality.

In a world where businesses need to stay agile and customer-centric, the SUNMI P3 AIR stands out as a reliable, efficient, and adaptable partner. It's more than a payment terminal; it's a tool that empowers businesses to streamline operations, enhance customer experiences, and drive growth—all with the convenience of a single handheld device.

Lightweight power in your hand

Lightweight
design

Comfortable
even during
long use

313g body + slim 15.9mm profile,
lightweight and easy to carry.

Applications:

Restaurant Industry: Streamlining Service from Order to Checkout

Restaurants face the constant challenge of managing high customer volumes, especially during peak hours, while maintaining fast, friendly service. The SUNMI P3 AIR is the perfect companion for restaurant staff, featuring a one-handed grip design that allows servers to handle queuing, ordering, and checkout—all from the palm of their hand. No more rushing back and forth between tables and stationary POS systems; staff can take orders directly at the table, process payments instantly, and send orders to the kitchen in real time, reducing wait times and improving table turnover.

The device's durable build (IP65 rating, 1.5-meter drop resistance) stands up to the hustle and bustle of restaurant environments, including accidental spills and drops. Its 6.75" HD+ display is easy to read even in dimly lit dining areas, while the long-lasting 5000mAh battery ensures it stays powered through entire shifts. With support for multiple payment methods (including contactless NFC and QR code), customers can pay quickly and securely, eliminating the need for physical cash or card swiping. Additionally, the optional scanner can be used to verify food orders or scan inventory items, further streamlining backend operations.

Support and Services:

Our Payment pos product comes with comprehensive technical support and services to ensure that you have a smooth and hassle-free experience. Our team of experts is available to assist you in case of any issues or queries related to the product. The technical support and services we offer include:

24/7 customer support via phone, email, and chat

On-site technical support

Regular software updates to ensure optimal performance

Training sessions for your team to fully utilize the product

Customization services to tailor the product to your specific needs

Our goal is to provide you with the best possible experience with our Payment pos product, and we are committed to helping you every step of the way.
